Ms. Bonnie R. Reid Chief
Compliance Officer
Georgia Banking Company
1776 Peachtree Street, NW
Atlanta, Georgia 30309

Dear Ms. Reid:

SUBJECT: Strategic Plan Submission for Community Reinvestment Act (CRA)
Performance Assessment Purposes

On December 21, 2022, you submitted a final revised CRA Strategic Plan (Plan) on behalf of Georgia Banking Company for FDIC review and approval. The Plan will be used to evaluate the bank's CRA performance as an alternative to the intermediate small bank or large bank performance standards in Section 345.26(a)(2) of the FDIC's Rules and Regulations.

The Plan includes measureable and reasonable goals for residential, small business, and multi-family lending; community development lending and investments; community services grants and donations; and community service hours, necessary to achieve Satisfactory and Outstanding ratings for each of the three calendar years covered by the Plan term (2023, 2024, and 2025). The goals are reasonable, when considering the bank's performance context, identified assessment area needs, opportunities to meet those needs, and historical CRA performance. The Plan is appropriate, considering the bank's capacity, constraints, product offerings, business strategy, and community needs that were identified.

Accordingly, the Plan for Georgia Banking Company is approved with an effective date of January 1, 2023; a copy is enclosed. Should you have any questions, please contact Review Examiner Georgia R. Bass at gbass@fdic.gov.

Sincerely,

Phyllis M. Patton
Deputy Regional Director

1. BACKGROUND INFORMATION

GEORGIA BANKING COMPANY (GBC)

Vision: To Be the Bank of Choice

Mission: Your Success Is Our Mission

Values: Service | Expertise | Relationships

HISTORY OF THE INSTITUTION

Georgia Banking Company Inc., a holding company, was incorporated as a Georgia business corporation on March 25, 1998, to engage in a mortgage warehouse facility. The company received regulatory approval to own a Georgia State Bank in October 2001. The Bank, Georgia Banking Company (GBC), began operations on November 1, 2001. In November 2003, the Company received regulatory approval to consolidate its mortgage warehouse facility with its banking operations. The Bank is a Georgia State Chartered bank and is regulated by the Georgia Department of Banking and Finance and by the Federal Deposit Insurance Corporation (FDIC), who insure our deposits up to the amount allowed by law.

In 2020, an investor group led by Bartow Morgan, Jr., identified a gap in the Atlanta MSA banking landscape between \$2 - \$10 billion, for banks (i) headquartered in the market, (ii) providing local decision making, (iii) large enough to serve the needs of small to mid-sized businesses, and (iv) small enough to deliver the service of a community bank. A \$125 million equity capital raise was completed to affect the change of control of GBC, and, along with a subsequent \$55 million sub-debt issuance, provide sufficient capital for growth and expansion. The thesis for the GBC change of control was that the existing platform would provide a stable base of revenue with limited credit and operational risk from which to build out a successful and diversified Commercial Community Bank.

The investor group put together a Board of Directors with a diverse set of experience and expertise, including the management of previously successful, similarly situated community banks. The Board of Directors hired a team of experienced and successful bankers in key executive management areas and established the Bank's strategic objectives. Management then embarked on a

strategy to hire top tier bankers to form newly established commercial lines of business to execute the Bank's growth strategy. A key theme across the organization is that seasoned, successful and experienced bankers with proven track records reduces execution risk.

The initial focus was to (i) generate diversified organic loan and deposit growth by turning on additional production engines through commercial lines of business led by industry leaders with successful track records and (ii) to shift from a wholesale funding model to a core deposit franchise through the development of full banking relationships with commercial and retail clients. Due to the Bank's previously minimal focus on commercial and retail clients, GBC had limited deposit share within the Atlanta MSA, providing significant opportunity to gain deposit share through established relationships with GBC's new Senior Bankers.

Today, GBC is a full service, Commercial Community Bank with assets of \$ 1.3 billion as of June 30, 2022. Led by fifth generation banker, CEO Bartow Morgan, Jr., GBC's team of veteran Atlanta bankers are focused on leveraging technology to deliver an exceptional service experience to meet the evolving needs of our clients. The Bank continues to offer a unique suite of mortgage products to independent mortgage bankers and lenders across the nation.

2. BANKING OPERATION

BRANCH LOCATIONS

The Bank currently has seven branches, two located in its corporate headquarter office in Atlanta, another located in Griffin, GA (Spalding County), serving the South Metro area, and four branches in the Northern arc of the Atlanta MSA. The main office, Garden Hills, Alpharetta, and Marietta branches are located in upper-income census tracts. The Lawrenceville and Duluth branches are in middle-income census tracts. Four of the seven branches are also located within Majority Minority Census Tracts. The Griffin branch is located in a low-income, census tract. The Bank previously operated a Mortgage Loan Production Office (LPO) in Charlotte, North Carolina; however, the Bank has shuttered its LPO and no longer has a physical presence in the Charlotte area market.

CURRENT PRODUCTS AND SERVICES

Georgia Banking Company offers a full range of checking, savings, and lending services.

Deposit Products

Designed with our customers in mind, GBC's product suite has something for everyone. All personal checking accounts include a complimentary debit card, Zelle®, eStatements, online banking with bill pay, mobile banking with mobile deposit, and free ATM Transactions at all GBC locations. Deposit products offered include:

Consumer Checking

- Premier
- Connect
- Choice
- Consumer Community

Consumer Savings

- Regular Savings Accounts
- Platinum Money Market Account
- Certificate of Deposit (CD)
- Individual Retirement Account (IRA)

Business Checking

- Business Essentials
- Business Advantage
- Business Interest
- Commercial Analysis
- Commercial Analysis Plus Interest
- Interest Lawyer Trust Accounts (IOLTA)
- Business Community

Business Savings

- Business Certificate of Deposit
- Commercial Money Market

Charts showing the features of each of the consumer checking and business checking accounts can be found in Appendix A to this Plan.

Loan Products

- Commercial & Industrial
- Commercial Real Estate
- Community Banking
- Specialty Lending
- Consumer Lending
 - Personal Loans
 - Home Equity Lines of Credit (HELOC)
 - Mortgage Loans
 - Conventional Fixed Rate Mortgage
 - Adjustable-Rate Mortgage
 - FHA Mortgage
 - VA Mortgage
 - Closed-End Second Mortgage
 - USDA Rural Guarantee Mortgage

In June 2022, the decision was made to exit the Government Guaranteed Lending (SBA & USDA) Line of Business from a new origination perspective. The Bank continues to service the existing 7(a) and 504 loan portfolio.

Services

- Online Banking
- eStatements
- Bill Pay
- Mobile Banking
- Mobile Deposits
- Zelle
- Debit Cards
- Mobile Wallet

Comprehensive Solutions

- Treasury Solutions
- Private Banking

Additional Lines of Business

- GBC Funding

GBC Funding, a division of the Bank, is a National Warehouse provider dedicated to serving Independent Mortgage Bankers of all sizes.

- GBC Correspondent Lending

In 2017, the Bank launched GBC Correspondent Lending, a division of the Bank, which purchases closed loans, both from our GBC Funding clients as well as well-vetted Correspondents including independent mortgage bankers and community banks.

- The GBC Insurance Services and Manufactured Housing Purchases are both discontinued. These services were suspended subsequent to approval of the last CRA Strategic Plan.

3. GBC CRA ASSESSMENT AREA (AA)

DESCRIPTION OF AA

In conjunction with the upcoming renewal of the Bank's CRA Strategic Plan for the 2023-2025 time period, an analysis was performed of the loans purchased and originated in and around the Atlanta Metropolitan Statistical Area (MSA) as well as the subset of those loans that are also located inside GBC's Community Reinvestment Act (CRA) Assessment Area (AA). In reviewing the resulting data, the Bank has determined that a slight change in the AA is warranted.

It is important to the Bank that the criterion established in the CRA regulation be followed both in letter and spirit. Therefore, the Bank has maintained a contiguous grouping of whole counties stretching between and beyond the counties in which our branches are located. The revised AA represents an area that the Bank can reasonably be expected to serve given the analytics below. The revised assessment area includes a new contiguous county to the Atlanta MSA but does not cross state lines. The inclusion of this county does not reflect illegal discrimination and includes areas of all income categories.

The revised AA consists of the following 15 counties: Barrow, Cherokee, Clayton, Cobb, Coweta, DeKalb, Fayette, Forsyth, Fulton, Gwinnett, Hall, Henry, Paulding, Spalding, and Walton. The only change to the AA in the current plan is the addition of Hall County which is a county contiguous to two of the Bank's new branches. Both mortgage and commercial lending in prior years supports adding Hall County to the Bank's AA even without the new branches. This action further demonstrates GBC's expansion philosophy into additional neighborhoods of Metro Atlanta.

All counties in the AA are located in or contiguous to the Atlanta-Sandy Springs-Roswell, GA Metropolitan Statistical Area (12060) (Atlanta MSA). The Bank's AA contains 1,358 census tracts spread across 15 counties. The 2022 Estimated MSA Median Family Income for the Atlanta MSA is \$84,791 annually, and for Hall County the Median Family Income is \$74,139. Income brackets, as classified by the FFIEC, are divided into four categories, low-income, moderate-income, middle-income, and upper-income. Income classifications for GBC's AA are defined as follows:

Income Classifications	Atlanta MSA	Hall County
Low-income , which means an individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent, in the case of a geography.	Less than \$42,395.50	Less than \$37,069.50
Moderate-income , which means an individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent, in the case of a geography.	Between \$42,395.50 and \$67,832.79	Between \$37,069.50 and \$59,311.19
Middle-income , which means an individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent, in the case of a geography.	Between \$67,832.80 and \$101,749.19	Between \$59,311.20 and \$88,966.79
Upper-income , which means an individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more, in the case of a geography.	\$101,749.20 and above.	\$88,966.80 and above.

GBC AA COUNTY AND CENSUS TRACT SUMMARY

A review of the data in the chart below shows that out of the 1,358 census tracts, 8.32% (or 113 tracts) are located within low-income census tracts while moderate-income tracts account for another 21.72% (or 295 tracts). Middle-income census tracts account for 30.12% (or 409 tracts) while upper-income tracts account for 35.86% (or 487 tracts). Finally, there are 3.98% of the census tracts (or 54 tracts) that carry an income designation of "unknown". Six of the 15 counties inside the Bank's AA do not have any low-income census tracts (Barrow, Cherokee, Fayette, Forsyth, Paulding, and Walton counties), while each of the 15 counties has at least one moderate-income census tract. None of the counties have census tracts that have been designated as Distressed or Underserved.

County Name	County Code	Low	Moderate	Middle	Upper	Unknown	Total CT's
Barrow	13	0	8	9	1	0	18

Map of CRA Assessment Area

DEMOGRAPHICS OF THE AA

The fifteen-county area that makes up the Bank’s Assessment Area (AA) includes the urban core of the Atlanta-Sandy Springs-Marietta, GA Metropolitan Statistical Area (MSA) and one contiguous county. The AA also includes substantial portions of the northern and southern suburbs within a reasonable radius of the Bank’s six branch locations.

Knowing the housing make-up of the Bank’s AA will provide guidance when determining appropriate products and lending strategies for meeting the housing needs therein. This includes knowing the total housing units, the mix between owner-occupied versus renter-occupied units, median home value, and the median gross rent payment.

County Name	County Code	Population	Total Housing Units	Owner-Occupied	Renter-Occupied	Median Home Value	Median Gross Rent Payment
Barrow	13	81,294	29,036	76.7%	23.3%	\$169,900	\$1,020
Cherokee	57	253,780	94,658	76.4%	23.6%	\$271,300	\$1,304
Clayton	63	287,560	105,992	50.3%	49.7%	\$122,100	\$1,024
Cobb	67	756,653	302,537	65.8%	34.2%	\$273,900	\$1,264
Coweta	77	145,839	55,601	75.1%	24.9%	\$225,000	\$1,124
DeKalb	89	755,287	314,430	55.7%	44.3%	\$235,300	\$1,224
Fayette	113	113,544	43,000	81.5%	18.5%	\$293,400	\$1,396
Forsyth	117	236,605	83,965	84.2%	15.8%	\$362,300	\$1,432
Fulton	121	1,051,550	479,696	52.9%	47.1%	\$326,700	\$1,263
Gwinnett	135	926,414	312,887	66.5%	33.5%	\$235,700	\$1,331
Hall	139	201,434	74,544	68.9%	31.1%	\$212,700	\$987
Henry	151	229,994	82,938	70.9%	29.1%	\$189,600	\$1,203
Paulding	223	164,400	58,077	77.6%	22.4%	\$184,000	\$1,198
Spalding	255	66,043	27,623	64.0%	36.0%	\$134,800	\$879
Walton	297	93,284	34,311	76.1%	23.9%	\$210,500	\$1,023
Totals		5,363,681	2,099,295				

SOURCE: findCRA Contexter Report for 2022

Unemployment rates remain high in the southern half of the AA compared to Georgia’s overall rate of 5.6% and the national rate of 3.5%. Further, the percentage of the total population below poverty line also remains high in the same area compared to Georgia’s overall rate of 14.3% and the national rate of 14.4% (as of February 2022). Finally, another indication of financial strain in a community is the percentage of students enrolled in the National Free and Reduced Lunch program. For Georgia, in the 2019-2020 school year, the percentage was 59.7% while the national percentage was 52.1%. This information, coupled with the census tract income information, provides an excellent tool for identifying areas of opportunity for the Bank’s lending, community development, and community services efforts.

Counties	Population	County Unemployment Rate in 2022 Compared to the GA Rate of 5.6%	County Total Population Below Poverty Line in 2022 Compared to the GA Rate of 14.3%	Students Eligible for Free or Reduced Lunches in 2022 Compared to the GA Rate of 59.7%
Barrow County	81,294	4.8%	11.2%	45.65%
Cherokee County	253,780	3.8%	6.9%	27.47%
Clayton County	287,560	7.1%	16.6%	83.26%
Cobb County	756,653	4.8%	8.6%	40.49%
Coweta County	145,839	3.9%	8.8%	34.6%
DeKalb County	755,287	6.7%	14.4%	63.44%
Fayette County	113,544	4.2%	4.7%	25.11%
Forsyth County	236,605	3.3%	5.2%	13.69%

Walton County	93,284	4.8%	12.3%	41.15%
	5,363,681			

Source: findCRA Contexter Report for 2022

An analysis of the chart shows that the low and moderate tracts are located primarily in the urban areas and outlying counties south of the city. Of particular note are the counties of Clayton, Dekalb, and Spalding. Clayton County has an unemployment rate of 7.1%, with 16.6% of the population living below poverty level and 83.26% of students eligible for free and reduced lunches. Dekalb County has an unemployment rate of 6.7%, with 14.4% of the population living below poverty level and 63.44% of students eligible for free and reduced lunches. While Spalding County has an unemployment rate under the GA rate, the 17.5% poverty rate and 66.48% of students eligible for free and reduced lunches are still concerning.

This summary of demographic characteristics in the Bank's AA is intended to provide an overview to introduce the reader to the AA by providing a context for the goals and community partnerships referenced in the plan. The ongoing use of demographic data is critical to guiding the success of the Bank in meeting the goals outlined in this plan and to allow the Bank to respond and adjust to significant changes occurring in the AA. The Bank relied on demographic information obtained from software company findCRA's Contexter Report for 2022 by county.

Of course, the most current source of information on demographic changes tends to come from the non-profit and governmental partnerships developed by the Bank. These partners are the first line of response to shifting demographic trends that negatively impact both individuals and families in the AA. Thus, we intend to build upon the relationships we have developed with our partners to assure we can quickly respond to the changing needs of our community.

BUSINESS, EMPLOYMENT, AND ANNUAL PAYROLL OF AA

The chart on the following pages outlines, for each county in the AA, the number of businesses (Firms) broken down by size, employment, and annual payroll. The total number of employees and total annual payroll data is available at the county level only on an aggregate basis, not by business size. This information, obtained from findCRA's Contexter Report for 2022 and the US Census Bureau's County Business Patterns database allows the Bank to better understand the size and scope of the market. The Bank will continue to seek out market opportunities that meet our credit standards and profitability requirements.

County Name	Size of Business Establishments Based on Number of Employees	Number of Businesses	Annual payroll (\$1,000)

4. CRA STRATEGIC PLAN OVERVIEW

Section 345.27 of the Community Reinvestment Act permits an insured institution to comply with CRA by electing to implement an approved Strategic Plan. Due to the Bank’s unique business model discussed below, the Board of Directors and management had previously elected to operate under a Strategic Plan to satisfactorily fulfill its CRA obligations. The Bank proposes to maintain the same basic structure for the 2023-2025 plan as the unique national footprint of the funding warehouse continues to generate that majority of the loans that are countable under CRA. This structure will gradually shift with the maturation of the Bank’s new lines of business.

GBC CRA MISSION STATEMENT

Georgia Banking Company (GBC) takes its responsibilities and obligations under the Community Reinvestment Act (CRA) very seriously. Recognizing the importance of integrating CRA into every facet of the Bank’s business, the Directors and management have created this CRA Strategic Plan to guarantee that the business activities of the Bank are true to the spirit of the Community Reinvestment Act and that this commitment is captured in clear, measurable goals that ensure the Bank meets, in a tangible way, its obligations to the broader community within its Assessment Area.

OVERALL GOALS

The Board of Directors and management will oversee the Bank’s progress in meeting the Plan’s objectives. The resulting dollar amount for three of the four sections of the new plan have been increased as a demonstration of GBC’s commitment to meeting our community’s needs. The goals established as satisfactory performance in this plan show the following growth rates over the next three years using GBC’s 2022 CRA satisfactory performance goal as a base.

	2022 (Satisfactory Goal)	2025 (Satisfactory Goal) *	Growth Rate
Lending	\$59,777,800	\$78,224,250	30.86%
Community Development Loans & Investments	\$12,191,525	\$10,429,900	<14.40%>
Grants & Donations	\$45,000	\$65,000	44.44%
Service Hours	200	230	15%

* 2025 goals are projected based on growth numbers in the Bank's overall Strategic Plan

EFFECTIVE DATE AND TERM

GBC anticipates that it will receive approval for the Strategic Plan from the FDIC and implement the plan on January 1, 2023. This Plan covers the three calendar years of 2023, 2024, and 2025. Upon the expiration of this term, management will review the In/Out performance of the applicable Lines of Business to determine if a new CRA Strategic Plan is needed, or if the Bank should convert to a traditional CRA Plan. It is contemplated that GBC will qualify as a Large Bank at that time.

ONGOING REVIEW OF GOALS AND PERFORMANCE CONTEXT

GBC fully recognizes the lending, investment and community services goals established in this plan are based on forecasts and assumptions about the Bank's business model as well as economic and competitive conditions within the AA. Changes to the Bank's business model or changes in the performance context will be reviewed as they could have an impact on the Bank's ability to meet any of the goals. Consequently, the Bank will establish a process for monitoring progress toward meeting annual goals under the plan. Monthly status reports will be provided to the Compliance Working Committee and quarterly reports will be provided to the Risk Committee of the Board of Directors in conjunction with the quarterly Compliance report.

If during this process, the Bank determines there is the need to reevaluate or recalibrate any goals established under the plan, the first step will be to contact the FDIC to discuss the potential impact of any such changes and to reach a mutually agreeable path to resolving the issue.

Reports, updates, and any documentation supporting accomplishments under the CRA Strategic Plan will be retained by the Bank and made available to the FDIC during the next scheduled CRA performance review.

GOALS ESTABLISHED FOR SATISFACTORY AND OUTSTANDING RATINGS

GBC is fully committed to meeting or exceeding the goals established in this CRA Strategic Plan. As evidence of that strong commitment, the Bank has established goals for a "satisfactory" CRA rating as well as extended goals that would qualify the Bank for an "outstanding" CRA rating.

ELECTION OF ALTERNATIVE REVIEW PLAN

Given the fact that GBC's existing applicable business model creates challenges in meeting some of the standard goals for an Intermediate Small institution CRA evaluation, GBC would not choose to be evaluated under an alternative assessment method if it does not meet the requirements for a Satisfactory rating under this

CRA Strategic Plan. It is the intent of management and the Board of Directors, that GBC will devote the necessary resources to assure it meets or exceeds each of the goals in this plan.

5. PERFORMANCE CONTEXT

MARKET AND ECONOMIC CONDITIONS

According to the June 2022 edition of the Federal Reserve Beige Book report, economic activity in the Sixth District expanded at a modest pace from April through mid-May. Labor market tightness and wage pressures continued for some. Most nonlabor costs rose, and firms' pricing power was sustained. Retail Sales softened somewhat, and auto sales were down from year-earlier levels. Leisure travel was robust, and business travel and convention bookings picked up. Demand for housing slowed slightly as rates picked up, inventory levels remained low, and home prices remained elevated. Commercial Real Estate activity remained mixed. Manufacturing activity was strong. Conditions at financial institutions were mixed as lending activity strengthened and deposit levels declined.

The Oxford Economics Metro Economic Forecast Atlanta dated June 2021 reports that Metro Atlanta's GDP reached \$422.2 billion in 2020 ranking Atlanta 11th in the United States. Atlanta had recovered 56% of its lost jobs from the pandemic as of Q1 2021, which was higher than the US recovery rate of 52%. Atlanta was expected to recover all of its lost jobs in the first quarter of 2022. From 2023 to 2025, Atlanta is expected to see average annual job growth of 0.7% led by accommodation and food services with 21% of the total growth, followed by Health Care and Social Services with 15%, and State and Local Government—including state government jobs as well as those at Georgia State and Georgia Tech—with 14% of the total growth. From 2023 to 2025, GDP is expected to grow at an annual rate of 1.8% led by the information sector and professional services. Microsoft will likely contribute to GDP growth at its planned new campus in Fulton County near the Bankhead Railway Station, which it hopes to revitalize, and the popular Beltline.

Atlanta has long boasted of its diverse array of headquartered firms including Coca Cola, CNN, and Delta. However, in addition to steep tourism-related losses, the manufacturing sector declined 4.2% from Q1 2020 to Q1 2021, information (Media) declined 5.6%, and air transportation fell 28.2%, along with a 4.8% fall in State Government. Its other information, Tech-Related sector, however, grew 6.2% over the year, while Scientific R&D grew 9.5%. Finally, its Warehousing sector grew 7.4% over the year impacted by the "world's busiest" Hartsfield-Jackson airport. The aggregate Office sector declined 2.8% over the year but is expected to contribute 33% of the total growth from 2023 to 2025.

Atlanta has the second highest inflation growth rate among 23 major cities according to a survey from WalletHub on September 13, 2022. The Pew Research Center stated that Americans are dealing with the worst inflation in more than 40 years, with year-over-year inflation at 9.1% in June 2022. This explosive inflation is driven by a variety of factors, including the continued presence of the COVID-19 pandemic, the war in Ukraine, and labor shortages.

The reporter cites "The cause of high inflation is multifaceted, but I would boil it down to three main factors: ongoing supply disruptions; historic stimulus measures to combat the Covid recession; and reallocation challenges," said Jon Hoddenbagh, an international economics professor at Johns Hopkins University School of Advanced International Studies. "Overall, supply disruptions, historic stimulus measures, and reallocation challenges have led to an inflationary environment that we have not seen in the US and other advanced economies in a generation."

Finally, he states "Unfortunately, there is not much that can be done immediately," said Christopher Ball, a Quinnipac University economics professor. "The Fed must raise interest rates and slow money growth while Congress also keeps spending restricted. Those are two painful things, but the only things that will tame inflation over time.

"The flood of money and spending that was pumped into the U.S. economy in the past two years must pass through the economy like a tidal wave bringing inflation up and forcing people to spend down the savings they all accumulated during the pandemic. It is a brutal process and will be hardest on those in society least able to handle it. That is, those in the lower income categories."

In an August 30, 2022 Norada Real Estate Investments article, Marco Santarelli shares current numbers as well as 2023 and beyond forecasts for the metro Atlanta housing market. Despite unemployment and uncertainty, the Atlanta residential real estate market performed exceptionally well in the past two years. Home prices skyrocketed in 2021 and the same trend continues in 2022.

However, things have likely taken a turn. Real estate is driven by credit and the latest data indicates lending standards are tightening. The drop in mortgage credit availability for home purchasers is driven by rising mortgage rates. The persistently low housing inventory and the jump in mortgage rates in 2022 are putting pressure on the Atlanta housing market.

While prices continue to rise, the inventory is also increasing in metro Atlanta, typically hovering at more than a month's supply at this time. Overall, the Metro Atlanta housing market remains competitive, although not as fiercely so as it was a

few months ago. With a 34% increase to 1.9 months of supply in July 2022, the Atlanta metro has reached its largest inventory level since October 2020; yet, Atlanta is still currently perceived to be a seller's real estate market.

With a median sales price above \$400,000 and an average price approaching \$500,000, sellers still have much to gain in Metro Atlanta's thriving real estate market. The median sales price in July was \$420,000, an increase of 15.1% from last July. The average sales price was \$498,500, up 13.9% from the previous year.

Karen Hatcher, president of the Atlanta REALTORS® Association, forecasts a 15.1% increase in the median sales price and a 13.9% increase in the average price by 2021. Multiple offers continue to be made within a few days on appropriately priced properties. Rising borrowing rates are the primary reason for the decline in sales compared to the previous year. Despite this downward tendency, economic activity in the metropolitan area and domestic migration, has remained in strong demand, with the median number of days on the market being seven, and the average number being sixteen.

The metro Atlanta housing market has seemingly been leaning in favor of sellers for several years, and the shortage of homes has been even more acute during this pandemic. Housing inventory in the Atlanta area totaled 12,112 units in July, an increase of 34.6% from July 2021.

New listings totaled 8,695, up 6.3% from July 2021 and down 14.0% from the previous month. The month's supply over a 12-month period increased to 1.9 months, which means sellers still cannot meet buyer demand. Experts have traditionally considered the market balanced when the number of listings is equal to about six months of sales.

Approximately 50% of the households in Atlanta, GA are renter occupied. Atlanta rent prices plunged during the most severe period of the coronavirus outbreak when much of the city's economy was locked down. It is supposed to have ended eight years of steady rent growth in the Atlanta housing market. Average rents were down 2.2% from March through May for the entire metro Atlanta market.

But the latest market reports show a fast-paced recovery from the effects of the pandemic. According to Realpage.com's analysis, there's been a record apartment demand in Atlanta. The whole Georgia market claimed the nation's top spot for apartment demand. Atlanta's 3rd quarter demand tally of 9,008 units accounted for 87% of the market's annual absorption in the year-ending September.

The rent prices are up whether you compare them annually or monthly. As of August 30, 2022, the average rent for a 1-bedroom apartment in Atlanta, GA is currently \$1,758. This is a 4% increase compared to the previous year. Over the past month, the average rent for a studio apartment in Atlanta decreased by -2% to \$1,625. The average rent for a 1-bedroom apartment remained flat, and the average rent for a 2-bedroom apartment remained flat.

In 2021, the City of Atlanta released a Comprehensive Development plan which included Affordable Housing needs and initiatives. The report identified the current housing supply problem and serving the unhoused. The plan detailed highlights of investing \$1 billion from public, private, and philanthropic sources to the production and preservation of affordable housing. This includes creating or preserving 20,000 affordable homes by 2026, implementing a strategic Urban Enterprise Zone Program to support affordable housing in high opportunity areas, as well as increasing the affordability of existing rental units in high opportunity areas.

COMPETITIVE BANKING AND MORTGAGE MARKET IN ATLANTA

As was true during the development of the Bank's previous three CRA Strategic Plans, the Atlanta Metropolitan Area is one of the most competitive banking and mortgage lending markets in the country. Atlanta's banking market has seen drastic changes during the last several decades. Consolidation and bank failure since the great recession created fewer banks, and a market dominated by larger regional and super-regional banks including Truist Bank, Bank of America, and Wells Fargo Bank with a combined total of 66% of the areas deposit market share, according to the FDIC's 2021 Deposit Market Share Report. Since 2010, the Atlanta MSA has seen over \$34 billion dollars' worth of M&A activity that created a barbell local banking market, inclusive of many non-local players and numerous community banks with limited scale. In total, the FDIC's Deposit Market Share report as of June 30, 2021, lists 71 FDIC insured banks doing business in the Atlanta region with GBC being ranked 24th with a total market share of .28%.

M&A actively left a void of community banks in the \$2-\$10 billion space, in regards to banks (i) headquartered in the market, (ii) providing local decision making, (iii) large enough to serve the needs of small to mid-sized businesses, and (iv) small enough to deliver the service of a community bank which led to significant bank customer displacement in the market. The market consolidation efforts witnessed in the last decade also alienated bank employees. Due to significant disruption to the Atlanta banking market, GBC now has the opportunity to serve a disenfranchised customer base that is hungry for best-in-class service delivered via a community bank platform with big bank capabilities.

LOCAL MARKET IDEAL FOR NEW GROWTH OPPORTUNITIES

The Atlanta MSA, home to more than 6 million people, is among the nation's ten largest MSAs, and has seen favorable demographic trends over the last few decades. Atlanta's population has continued to increase since the 1980's and is expected to increase by another two million people by 2025. This population growth is driven by increased corporate relocations to metro Atlanta and demographic shifts to the southeastern U.S., which is expected to provide economic growth potential for GBC across a multitude of industries and asset classes. Additionally, Atlanta's technology industry is among the highest growing industries in the southeast, providing GBC with a unique opportunity to potentially create and leverage Fintech partnerships to become the bank of choice for a wide array of customers across the Atlanta MSA.

GBC'S CHANGE IN CONTROL ON FEBRUARY 17, 2021

Prior to the change in control, GBC was a successful and well-managed Financial Institution with a proven and profitable operating model driven by its mortgage warehouse business. Management built a durable business model, with limited exposure to credit risk, over twenty years of operating through various economic cycles, which created an attractive platform for potential growth in the Atlanta market. The ability to leverage an existing profitable mortgage warehouse business to provide a base of revenue and earnings with a low credit-risk loan portfolio allowed the new Board of Directors and executive management team to focus incremental resources on establishing new strategic growth channels.

The economic and demographic characteristics of the Atlanta MSA and banking market played a significant role in making GBC the ideal investment opportunity for the new investor group. Given the attractive market conditions and unique \$2 - \$10 billion void in the Atlanta banking sector, a group of investors, led by seasoned banker Bartow Morgan Jr., raised \$180 million in capital to help GBC become the premier Community Bank of choice. A total of \$125 million in equity capital was raised prior to the change of control to allow the investor group to acquire GBC and build out a major presence in the Atlanta MSA. An additional \$55 million in subordinated debt was raised post change in control to provide sufficient capital for organic growth, opportunistic partnerships and/or M&A activity.

These factors created a unique environment for a new local Atlanta bank to emerge through best-in-class technology to deliver "big bank" capabilities with the high-touch, personalized service of a community bank. A local, sophisticated, and scalable community bank platform in the Atlanta MSA is strongly desired not only

by depositors and borrowers but top tier and veteran bankers which will create value not only for the institution but also its local community.

GBC's NEW BUSINESS MODEL

GBC implemented a shift in strategic direction post change in control to focus on low-cost core funding instead of wholesale funding and implemented various new complimentary commercial lines of business to diversify the Bank's loan portfolio by targeting acceptable credit risks with attractive yields to reach a broader market and provide attractive returns to shareholders. Due to the Bank's previously minimal focus on commercial and retail clients, GBC had limited deposit share within the Atlanta MSA, providing significant opportunity to gain deposit share through established relationships with GBC's senior bankers.

The capital raised was used to build out a wide array of products and services to meet the evolving needs of the Atlanta market. The new lines of business include Commercial Real Estate, Home Builder Finance, Commercial and Industrial, Community Banking, Private Banking, and Specialty Lending. Further, a large investment in new technology provided the opportunity to establish a robust suite of Treasury Management products to offer to these new clients so as to gain their deposit accounts as well. However, the Bank is no longer originating Government Guaranteed loans through the SBA or USDA.

GBC also plans to establish a limited footprint in the Atlanta MSA by rolling out several branches in key locations to drive low-cost deposits growth and help fund loan production from sponsors and borrowers in the targeted geographic footprint. As of the end of 2022, GBC operated six branches in Buckhead, Griffin, Duluth, Lawrenceville, Alpharetta, and Marietta.

GBC continues to operate its residential lending business consisting of the mortgage warehouse business and correspondent mortgage purchase business. The mortgage warehouse resulted in \$7.5 billion in activity at the end of 2021. Prior to the change in control, the Bank's total asset size was very closely tied to the cyclical nature of the mortgage industry. Due to the historically low interest rates in the past 5 years, the mortgage warehouse has managed to maintain steady growth in production. However, the instability in the current interest rate environment and the inflation projections for the remainder of 2022 and into 2023, the potential for large fluctuations in mortgage warehouse and correspondent lending makes setting CRA mortgage lending goals very difficult.

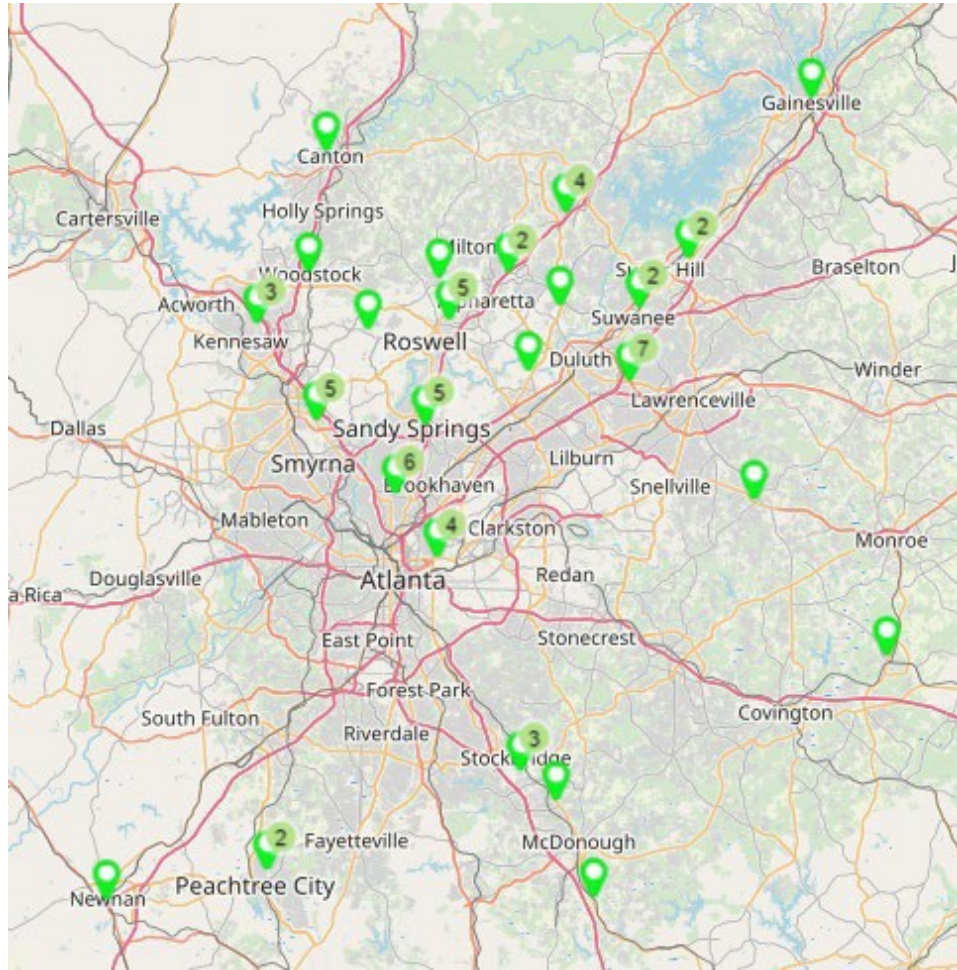

GBC's residential loan origination growth has remained low inside the AA due to the small number of mortgage loan officers on staff. However, GBC had success in the AA purchasing loans from correspondent clients including fixed-rate closed-end second mortgages, variable-rate HELOC second mortgages, and Jumbo first mortgage products.

CRA CHALLENGES ARISING FROM THE BANK'S BUSINESS MODEL

As stated in the previous Strategic Plan (2020-2022), GBC's consumer mortgage volume consists mostly of purchased loans on a national scale. GBC's consumer mortgage lending inside the AA is almost solely dependent on having correspondent clients with offices located inside the AA. Twenty of GBC's sixty-one correspondent clients operate offices within the AA and the map below roughly shows the geographic dispersion of those offices.

Correspondent Client Offices Inside GBC's CRA Assessment Area

Over the last two CRA Strategic Plan iterations, there has been a major shift in the types of loans being reported on GBC’s HMDA LAR. Specifically, GBC no longer purchases manufactured housing loans, and significantly fewer loans are originated while more are purchased. Additionally, the number of loans originated and purchased decreased each year and in 2021 was only 52% of what it was in 2017. Please see the chart below.

HMDA Loan Volume by Channel, Product, and Year 2017-2021							
	GBC Originated Loans		Correspondent Purchases		Manufactured Housing Purchases		Total HMDA Lines
	1st Mort	2nd Mort	1st Mort	2nd Mort	1st Mort	2nd Mort	
2017	393	47	0	951	389	0	1,780
2018	289	137	1	1193	0	0	1,620
2019	169	99	1	970	84	0	1,323
2020	152	128	1	970	2	0	1,253
2021	76	125	22	706	0	0	929

NOTE: This chart represents overall HMDA originations and purchases and is not limited to the Bank’s CRA Assessment Area.

Given the Bank’s unique consumer mortgage business model, which is reliant on serving a broader market for both risk management and competitive reasons, it remains highly unlikely that a majority of the residential mortgage loans will be originated or purchased within the AA.

As GBC fully implements the new lines of business focusing on commercial loans, mortgages will become a smaller part of GBC’s loan portfolio. GBC is seeking to build a diversified portfolio across all lines of business and sectors within those lines of business. As of June 30, 2022, the segmentation of the loan portfolio was as follows: Consumer Lending 3%, Other 1-4 Family (mortgages) 30%, Acquisition Development & Construction (ADC) 10%, Commercial Real Estate (CRE) 26%, Multi-family (5 or more) Residential Properties 3%, and Commercial & Industrial (C&I) 28%. While continued loan growth is expected, there will likely not be growth in the areas that count towards CRA Lending Goals that can help augment the Bank’s In/Out percentage. GBC originates very few farm and consumer loans, and the Government Guaranteed Lending, as an originating line of business, was

eliminated in June of 2022 leaving only mortgages and small business loans outside of traditional SBA loans for CRA testing.

Loan Portfolio Distribution as of 6/30/22

Loan Category	\$(000s)	%
Construction and Land Development	114,503	10.02
Secured by Farmland	6,602	0.58
Secured by 1-4 Family Residential Properties	345,740	30.25
Secured by Multifamily (5 or more) Residential Properties	38,680	3.38
Secured by Nonfarm Nonresidential Properties	292,725	25.61
Total Real Estate Loans	798,250	69.84
Commercial and Industrial Loans	184,425	16.14
Agricultural Loans	0	0.0
Consumer Loans	29,719	2.60
Other Loans	135,415	11.85
Less: Unearned Income	4,895	0.43
Total Loans	1,142,914	100.0

Source: Reports of Condition and Income

The creation of a new three-year CRA Strategic Plan will allow the Bank to fully develop the new lines of business and determine if there is a need for a subsequent plan. At the current time, there is limited historical data for most of the Bank's lending to make such a decision. This plan, in collaboration with the FDIC and the community, establishes customized goals that better fit with GBC's unique business model. As in the previous plan, goals established under the revised plan are focused mostly on activities within the AA with lending/investment goals being calibrated to a percentage of the Bank's average total assets. In addition to residential mortgage loans and loans to small businesses outside of the SBA guarantee, this Strategic Plan approach allows the Bank to establish goals for community development lending, community development investments and community service. This approach allows the Bank the opportunity to be more creative and innovative in responding to the needs of the community within its defined AA.

DISCUSSION OF LEGAL CONSTRAINTS AND OTHER LIMITATIONS

The Bank presently has no extraordinary legal or regulatory constraints or limitations that affect the types of loans, investments or services offered by the institution.

The current economic climate yields to uncertainties related to rising interest rates, persistent inflation, and increased recession risk that could dramatically affect the goals established in this plan. Reduced consumer confidence and possible reduction in housing demand due to higher mortgage rates would also significantly impact the Bank's ability to meet the CRA Lending Goals set herein, at which point the CRA Strategic Plan would be reviewed to determine the impact on the Plan's metrics. If the need arises to consider adjusting any goal, the Bank will contact the FDIC to discuss the matter and determine the appropriate approach to take in amending or modifying the plan.

6. PLAN DEVELOPMENT DETAILS

FDIC GUIDANCE

GBC developed its fourth three-year CRA Strategic Plan relying on experience gained in creating the previous 2020-2022 Plan. The Bank's staff was guided by the following regulations and resource documents; Section "12 C.F.R. § 345.27, Strategic Plan, of FDIC Rules and Regulations", "Community Reinvestment Act: Guide to Developing the Strategic Plan" and the "Strategic Plan Checklist". These documents, combined with the process used to create our first three plans, provided the framework for writing this plan.

Prior to submission of the plan, the Bank's CRA Officer communicated with the Atlanta Federal Deposit Insurance Corporation Compliance Division to discuss current trends and opportunities related to community development outreach, service, lending, and investments. The representatives from the FDIC were very informative answering specific questions regarding the plan and helping to establish the timeline of the submission process.

NON-PROFIT AND COMMUNITY OUTREACH

As an illustrative sample of the Bank's community outreach conversations, the following discussions are highlighted.

HomeAid Atlanta (Metro Atlanta) -

In the second quarter of 2022, a representative of the Bank spoke with Mandy Crater, Executive Director of HomeAid Atlanta. The mission of HomeAid Atlanta is to build and renovate housing on behalf of community based nonprofit service providers by leveraging the resources of the home building community and its corporate partners. HomeAid Atlanta also provides safe, dignified housing and programmatic facilities for those experiencing or at risk of homelessness through use of in-kind donations of labor and materials from building industry relationships.

Per Mandy Crater, the biggest issue facing the Atlanta Metro area is access to affordable housing. With the rise in cost of materials and labor due to the Covid pandemic, many builders in the Atlanta metro are feeling the strain on resources and some have even found other areas outside of the Atlanta region to focus on building. This causes a hardship for HomeAid Atlanta in their pursuit to provide substantial solutions for low- and moderate- individuals and families facing homelessness. Ms. Crater stated the best way for Community Banks to assist

HomeAid Atlanta and the community is by supporting affordable housing including working with local partners to develop down payment assistance and other financing programs that meet the needs of LMI families.

Griffin Chamber of Commerce (Spalding) -

A representative spoke with Cindy Jones, President & CEO of the Griffin-Spalding Chamber of Commerce. The Griffin-Spalding Chamber of Commerce supports the community of Spalding County by serving as a resource for information, and a voice for business and valuable link to government. The Griffin-Spalding Chamber of Commerce also provides access to effective networking systems available to promote local business and advance the economic potential and quality of life of our community. Per Cindy Jones, the biggest need the Griffin-Spalding Chamber of Commerce has identified in the community is the need for a steady workforce. Due to the Covid pandemic, there has been a decrease in workers willing to fulfill staffing needs throughout local businesses in the area. Another factor Ms. Jones identified is the need for local transportation much like the mass transit in the Greater Metro Atlanta area. Ms. Jones also stated local Community Banks could make a profound impact in the Spalding County area with financial and relationship involvement dedicated to financial literacy and small business seminars on how to maintain a business. Additionally, Community Banks can get involved in community services dedicated to low- and moderate-income individuals and families. Affordable Housing, entry level jobs, and first-time homeownership programs were also described by Ms. Jones as being opportunities for local Banks to assist low- and moderate-income individuals.

Impact46 (Gwinnett) -

A representative from the Bank spoke with Jen Young, Executive Director of Impact46. Impact46 serves the City of Lawrenceville, located in Gwinnett County, by building strategic partnerships with in the six sectors identified that make up a city center (neighborhood, businesses, government, churches, education, and non-profit) to produce a collective impact. Impact46 has several services such as the Extended Stay Relocation Project, which assist families living in extended stays with the pathway to permanent housing through barrier elimination and community support. Ms. Young identifies the biggest need in the community as being affordable housing. Ms. Young separates the need for affordable housing into two categories, affordable housing based on area median income and second chance housing. She stated, "Lawrenceville has an area median income (AMI) of \$52k but the average rent is well over \$1,600/month which is over 30% of gross income. We cannot say that we have an appropriate amount of affordable housing when people

are this cost burdened. We also have a large population of single parent households and many of them need two incomes to meet the AMI and get into affordable housing.” Ms. Young also stated there is a need for second chance housing for anyone with a criminal record or terrible credit. Many applicants that Impact46 works with have a criminal record and/or terrible credit and they have a need for a professional to assist them with housing placement due to low approval chances. Potential areas of assistance Ms. Young noted in the community were with rental, shelter, utilities, and transportation for up to 90 days to assist low- and moderate- income families and those who have experienced homelessness. Lastly, Ms. Young identified the best way Community Banks can make the biggest impact is by working and partnering with nonprofits who work with under resourced communities to educate and promote affordable options for housing, vehicles, and education to help families avoid predatory lending.

Southern Crescent Technical College (Spalding) -

A representative from the Bank spoke with Jeannan Hendon, Career Services and IET Adult Education Specialist with Southern Crescent Technical College. Southern Crescent Technical College, a unit of the Technical College System of Georgia, located in Griffin, GA, delivers relevant technical education, adult education, and learning opportunities via various instructional modalities at the associate degree, diploma, and certificate levels to promote service, workforce development, and economic development. Ms. Hendon identified the biggest need in the community as being education, starting with GED and beyond. She stated, “many members of the community have to make the choice between work and school due to financial obligations.” When asked about some of the main hurdles or challenges facing low- and moderate-income individuals and families, Ms. Hendon identified the inability to get out of financial “holes” created by needing to stay afloat. Ms. Hendon believes that Community Banks can help these families and individuals by bringing awareness to financial literacy and by also providing financial assistance programs that big banks don’t provide. “Bonds and relationships between customers and Banks will help the community, as a whole, to be more knowledgeable in their finances.”

NEWSPAPER NOTICE AND INVITATION TO COMMENT

GBC published a public notice of its intent to develop and apply for a new CRA Strategic Plan in the Atlanta Journal-Constitution on September 2, 2022. The Atlanta Journal-Constitution is the major daily newspaper serving the metropolitan Atlanta market. The paper has a wide distribution across the area.

The notarized Proof of Publication notice is included in Appendix B of this Plan. No comments or inquiries were received in response to the public notice.

REVIEW OF OTHER STRATEGIC PLANS AND PERFORMANCE EVALUATIONS

By virtue of the fact the Bank is requesting to operate under a CRA Strategic Plan, it is not surprising that it is difficult to identify either peer banks or similarly situated banks for comparison purposes. There are no other banks in the Atlanta market operating under a CRA Strategic Plan. There are two more in the FDIC's Atlanta Region, one in Wilmington, NC and one in Danville, VA. Neither of these banks are considered peer banks due to their sizes of \$9 billion and \$140 million respectively. As of August 12, 2022, per the FDIC's website, they have approved 40 Banks in the country to use CRA Strategic Plans. These were reviewed to determine a potential group of peer banks. Five banks were identified as being under \$3 billion in assets, but larger than GBC's \$1.3 billion. Three of those were selected for a closer review due to their lending specialties being similar to GBC's. For these three, either the plan or the latest CRA Performance Evaluation was reviewed during this process to calibrate our goals against banks with similarly unique business models. While none of the other banks provided a strong match to GBC in location, size, or business model, the comparison did allow us to apply an informal reasonableness test to the formulation of the Bank's goals under this plan and gave us items to consider regarding the way our plan operates.

7. MEASUREMENT STANDARDS

CURRENT YEAR BUSINESS ACTIVITY / NO CUMULATIVE COUNTING

As a point of clarification, all goals established under this Plan are based on new CRA-qualifying activity in the current year of the plan. No cumulative counting across years of lending, investment or service activity is allowed under the Plan.

FOCUSING ACTIVITY INSIDE THE BANK'S AA

Goals established as part of this plan are focused on activity within the Bank's established Assessment Area (AA). Unless otherwise noted, the plan intends for all lending, investment and service activity referenced in these goals to occur within the boundaries of the Bank's defined AA. In some cases, meeting Community Service goals may depend on partnerships with non-profit organizations that serve the entire metropolitan Atlanta area, not just the Bank's AA; however, in those cases, we will make every effort to focus such collaborative efforts on the Bank's AA or ensure that efforts focused on the broader Atlanta metropolitan area incorporate the AA as a key part of the community served by their efforts.

Given the limited supply of Affordable Housing, GBC will specifically look for opportunities to be involved in this initiative within the Bank's AA, greater metropolitan Atlanta area, State of Georgia, or greater regional area.

Where investments in SBICs, government-issued community-development bonds, CDFIs or CDCs are concerned, due to their limited availability, these investments may be located within the Bank's AA, greater metropolitan Atlanta area, State of Georgia, or greater regional area.

GOAL METRICS

The Lending and Community Development Lending and Investment goals are calibrated using a forecast of average total assets of \$2.2 billion for 2023, \$2.5 billion for 2024 and \$2.6 billion for 2025. The forecast for the three years of this plan are materially higher than the previous version of this plan but are reasonable given the new overall Bank Strategic Plan which includes additional lines of business, a larger footprint with new branches. However, as with any forecast, it is subject to change based on economic conditions and the macro-banking environment.

Regarding affordable housing, GBC has set a goal of 10% of the total number of HMDA loans made inside the Bank’s CRA Assessment Area will be made to LMI geographies and borrowers.

CALCULATION OF AVERAGE TOTAL ASSETS

Lending and Community Development Lending and Investment goals established in this plan will be stated as a percentage of the Bank’s average total assets for the previous year. For example, average total assets for 2023 will be calculated by taking total quarterly average assets from the Call Report, Schedule RC-K, Line 9, at the end of each calendar quarter of 2022 and averaging those four numbers (and rounding up or down to the nearest million) to arrive at the average total assets number used for calculating lending and investment goals for 2023. This approach will be applied to the goals for all three years covered under the plan.

Actual quarterly Total Assets as reported on the Call Reports for the previous CRA Strategic Plan for 2020-2022 are as follows:

	Q1	Q2	Q3	Q4	Annual Avg.
2020	\$ 476,209,000	\$ 598,530,000	\$ 668,383,000	\$ 688,335,000	\$607,864,250
2021	\$ 605,979,000	\$ 668,636,000	\$ 834,474,000	\$ 1,037,111,000	\$786,550,000
2022	\$ 1,210,411,000	\$ 1,239,827,000	Unknown	Unknown	Unknown

Note: This information is per Schedule RC-K, Line 9

8. PERFORMANCE GOALS

PERFORMANCE GOALS SUMMARY CHARTS

The CRA Strategic Plan goals shown in this section are a best effort projection resulting from analyzing the Bank’s actual performance as compared to the goals established in both the 2017-2019 and 2020-2022 plans. The first chart below shows this analysis.

CRA Strategic Plan Goals Versus Actual Performance

Calendar Year	Ratings	2017	2018	2019	2020	2021	Through 6/30/2022
Lending Goals - Residential and Loans to Small Businesses	Satisfactory	7.00%	7.15%	7.30%	7.40%	7.50%	7.60%
	Outstanding	11.00%	11.15%	11.30%	11.40%	11.50%	11.60%
	Actual	8.85%	7.30%	8.19%	8.80%	10.57%	6.97%
Est. Avg. Total Assets-Goal Denominator	Projected	\$400,000,000 [^]	\$450,000,000 [^]	\$500,000,000 [^]	\$461,000,000 [~]	\$480,500,000 [~]	\$500,000,000 [~]
	Actual	\$407,570,250	\$420,502,000	\$425,579,750	\$460,984,750	\$607,864,250	\$786,550,000
Community Development Lending and Investments	Satisfactory	1.00%	1.10%	1.20%	1.25%	1.40%	1.55%
	Outstanding	1.25%	1.35%	1.50%	1.50%	1.65%	1.80%
	Actual	1.24%	1.22%	1.20%	1.38%	1.55%	0.18%

	Actual	156 Hours	190 Hours	194.5 Hours	7.5 Hours	197 Hours	149 Hours

[^] As stated in the 2017-2019 CRA Strategic Plan.

[~] As stated in the GBC 2020-2022 Strategic Plan.

As a starting point for the revisions, the Call Report as of June 30, 2022, shows that the Bank had total assets of \$1,239,827,000 (per Schedule RC-K, Line 9) and deposits as of that date totaled \$1,190,161,000 (Call Report, Schedule RC, Line 13a). Per the Bank’s Strategic Plan projections for the end of 2025, it shows total assets at \$2,607,475,000. As a result, of the analysis and projections, the following goals were established for the 2023–2025 GBC CRA Strategic Plan.

2023 – 2025 CRA Strategic Plan Goals

Calendar Year		2023	2024	2025
	Ratings			
Lending Goals - Residential, Small Loans to Businesses, & Multi-Family	Satisfactory	3.00%	3.00%	3.00%

	Outstanding	15% by number	15% by number	15% by number

* Based on GBC's Strategic Plan for 2023-2025

** Based on the total number of HMDA loans inside the Bank's CRA Assessment Area

Given the increase in number of Commercial Loan Officers and their ability to make new Small Loans to Businesses, the estimate of how much of the CRA Lending will come from new Mortgage loans has changed from 90% in previous plans, to 80% in this iteration. However, as mentioned earlier in this document, the Mortgage line of business is fully established and not expected to see significant growth like the new Commercial lines of business. As a result, the percentage of the average total assets has been lowered in this plan to accommodate the new focus on Commercial Banking.

While the percentages are lower, the dollar amount for each year is still higher than in previous plans due to the change in the size of the institution. For example, at the same lending percentage rate that is applicable for 2022 of 7.6%, the lending goal with the new denominator for 2023 of \$2,198,560,000 would have been \$167,090,560, an increase of 179.50%. The Mortgage line of business cannot support 80%, or \$133,672,448 of this growth. The new percentage of 3.00 is more appropriate while still demonstrating the need for growth in CRA Lending given the increase in the Bank's projected average asset size.

Mortgage loans are also known as HMDA reportable loans, located inside GBC's AA. This includes purchased and originated first and second home mortgages. GBC no longer purchases manufactured housing liens. GBC has started making some smaller multi-family dwelling loans which are also captured in HMDA data.

GBC's mortgage offerings currently include originating mortgages in these programs: Conventional Fixed-Rate, ARM, FHA, VA, USDA Rural Guarantee, as well as fixed-rate, closed-end and variable-rate, open-end Home Equity Line of Credit (HELOC) second mortgage products. Additionally, GBC purchases the following loans from GBC's growing correspondent network fixed-rate, closed-end and variable-rate, open-end Home Equity Line of Credit (HELOC) second mortgages, and a limited number of Jumbo first mortgage loans.

GBC has found a valuable partner in the Federal Home Loan Bank of Atlanta and continues to offer its various down payment assistance loans including the First Time Home Buyer Program offered under its set-aside program. This program provides forgivable down payment assistance grants for low- to moderate-income homebuyers. GBC is an active participant in this program. These loans have helped our mortgage marketing efforts inside the AA. GBC also offers this program to select correspondent clients inside the Bank's assessment area, therefore making down payment assistance available to more low- to moderate-income borrowers than GBC's limited internal retail mortgage group can reach.

A chart in the Performance Context section shows HMDA Trends by Channel, Product, and Years 2017-2021 to show the progression of lending over the period from first to second mortgages and away from internally originated loans and to purchased loans. The chart also shows a significant reduction in the number of loans across the five-years reviewed. The further development of GBC's correspondent network is key to GBC meeting our CRA Strategic Plan Goals in the 2023-2025 plan.

The goal also relies on new loans to small businesses as identified in Part 345.12(v), "Definitions", of the FDIC's Rules and Regulations for the Community Reinvestment Act. Loans qualify as a "small business loan" when they are for entities inside our AA which have a commitment amount of \$1,000,000 or less. Since the change in control in February 2021, GBC has engaged in more commercial lending by opening additional Lines of Business and hiring teams of experienced lenders and operations personnel. However, the Government Guaranteed Lending operation offering SBA and USDA loans ceased originations in 2022.

In 2020 and 2021 combined, 3.36% of the total CRA reportable loans, or \$3,116,285, came from the SBA channel, mostly due to the COVID-19 PPP program. No applicable loans were generated through the SBA channel in 2022.

From the change-in-control in February 2021 through the end of 2021, 18.89% of the total CRA reportable loans, or 25 loans for \$12,130,309, were generated inside GBC's AA by the Commercial Lending Lines of Business in amounts equal to or less than \$1,000,000. Through June 30, 2022, small loans to businesses equals 11.50% in 20 loans for \$6,300,757.

GBC will not count loans as Small Business loans if they are also HMDA reportable.

GBC originates few farm and consumer loans. Consequently, the Plan's lending goals relate solely to home mortgage and small business lending and do not include farm or consumer loan-related criteria.

In summary, loans meeting this goal will come from the following sources:

- Residential first and second mortgages (HMDA Reportable) originated by Retail Mortgage and Private Banking and those purchased from correspondent customers, and
- Small loans to businesses as defined in Part 345.12(v), "Definitions", of the FDIC's Rules and Regulations for the Community Reinvestment Act and SBA loans that meet the definition of loans to small businesses but do not qualify as Community Development loans for CRA purposes.

The percentage for the satisfactory lending goals were lowered for the current Plan, and the cushion between the satisfactory and outstanding goal has been reduced. The new average asset size of the Bank is substantially larger during this iteration of the CRA Strategic Plan, and even with the new percentage, meeting the satisfactory goal represents a strategic prioritization of CRA Lending for the Bank requiring management's increased time and attention.

BANK'S FOCUS ON AFFORDABLE HOUSING

As pointed out in several of our community discussion recaps in Section 6 of this document, affordable housing is seen as being a major barrier for individuals who are categorized as low- to moderate-income (LMI) individuals. As such, GBC is devoting additional time and resources during this new CRA Strategic Plan period to monitor our mortgage lending efforts to LMI Geographies and Individuals.

In a similar fashion to the newly proposed CRA Lending test, GBC will begin monitoring the percentage of loans by number that are located inside an LMI geography and to LMI borrowers. We will not be making a differentiation between

low and moderate-income, because six of the fourteen counties in our assessment area do not have low-income census tracts. As stated earlier in this document, 408 or 30.04% of the 1,358 census tracts in GBC's AA are designated as LMI. Given the locations of the Correspondent branches of the entities from whom we purchase loans, and the nature of the users of second mortgage products, GBC is setting a goal of 10% of the total number of HMDA loans inside the Bank's CRA Assessment Area for LMI geographies and borrowers as a starting point. GBC will also seek additional ways in which we can meet the Affordable Housing needs of the AA.

COMMUNITY DEVELOPMENT (CD) LENDING AND INVESTMENT GOALS

CD Lending and Investment Goal Summary Chart

Calendar Year		2023	2024	2025
	Ratings			
Community Development Lending and Investments	Satisfactory	0.40%	0.40%	0.40%
	Outstanding	0.50%	0.50%	0.50%
Est. Avg. Total Assets-Goal Denominator *		\$2,198,560,000	\$2,445,266,000	\$2,607,475,000
Multi-Family Dwellings in LMI Geographies or for LMI Individuals in Other Geographies	Satisfactory	1 Loan	1 Loan	1 Loan
	Outstanding	3 Loans	3 Loans	3 Loans

* Based on GBC's Strategic Plan for 2023-2025

In the context of this CRA Strategic Plan, the Bank intends to make full use of CRA-qualifying loans and investments to further serve low- to moderate-income communities within the Assessment Area up to the greater regional area. Along with the change in control came a new investment philosophy to maintain a smaller investment portfolio so as to keep assets readily available for expansion. This is coupled with a significant increase in the average asset size of the Bank has generated the need to recalibrate our Community Development Loans and Investments goals. While the percentages are lower, the resulting dollar amount remains a significant investment in the LMI Community. Further, meeting the satisfactory goal represents an increased focus on Community Development Lending as well as a substantial investment in the Bank's AA up to the greater regional area. As previously stated, the annual goal for new CD loans or investments is established as a percentage of average quarterly total assets from the previous calendar year.

CD investments are a critical tool allowing the Bank to help meet the broader needs of the low- to moderate-income community within the AA. Given the size of the Bank relative to the needs of a large urban Metropolitan area, a well-chosen CD loan or investment will allow the Bank to support diverse activities such as affordable rental housing, single family residential purchases, and access to healthcare and job training for low- to moderate-income populations.

CRA-eligible CD investments will come from the following sources:

- GNMA or GSE-issued CRA mortgage-backed securities,
- Qualified Investment Fund CRA shares (CRAIX),
- Investments in Small Business Investment Companies (SBICs) or similar vehicles,
- Municipal or other government-issued community development bonds where the purpose is to provide improved housing or services to low-mod communities or to create new jobs,
- Investments in CDFIs, CDCs, or Minority- and Women-owned financial institutions, community loan funds, and low-income or community development credit unions focused on serving low- to moderate-income communities,
- Other sources of CD investment opportunities identified by the Bank.

CRA-eligible community development loans could include: *

- Loans to a for-profit entity not secured by real estate and greater than \$1 million with a primary purpose consistent with the definition of community development
- Permanent loans to a for-profit entity secured by nonfarm, nonresidential real estate and greater than \$1 million with a primary purpose consistent with the definition of community development
- Permanent loan to a nonprofit entity secured by nonfarm, nonresidential real estate and greater than \$1 million with a primary purpose consistent with the definition of community development
- Construction or development loan or the construction-only portion of a construction-permanent loan to a for-profit entity secured by nonfarm, nonresidential real estate with a primary purpose consistent with the definition of community development (no dollar limit)
- Construction or development loan or the construction-only portion of a construction-permanent loan to a nonprofit entity secured by nonfarm, nonresidential real estate with a primary purpose consistent with the definition of community development (no dollar limit)
- Permanent loan to a for-profit entity secured by and made for the purpose of purchasing or improving a multifamily dwelling with a primary purpose consistent with the definition of community development

- Permanent loan or line of credit to a nonprofit entity secured by and made for the purpose of purchasing, refinancing or improving a multifamily dwelling with a primary purpose consistent with the definition of community development
- Construction and other temporary financing or the construction-only portion of a construction-permanent loan to a for-profit entity secured by residential real estate with a primary purpose consistent with the definition of community development (no dollar limit)
- Construction and other temporary financing or the construction-only portion of a construction-permanent loan to a nonprofit entity secured by residential real estate with a primary purpose consistent with the definition of community development
- Loan to a nonprofit entity secured by production payments (e.g., oil or mining) but not real estate and greater than \$1 million with a primary purpose consistent with the definition of community development
- Loan to a nonprofit entity not secured by real estate or production payments (e.g., oil or mining) with a primary purpose consistent with the definition of community development (no dollar limit), and

* Source: Federal Reserve Bank of Dallas' CRA Loan Data Collection Grid updated as of October 2020.

- Other sources of CD lending activity that the Bank may identify from time to time possibly including:
- Loans to financial intermediaries including Community Development Financial Institutions (CDFI), New Market Tax Credit-eligible Community Development Entities, Community Development Corporations (CDC), minority- and women-owned financial institutions, community loan funds or pools, and low-income or community development credit unions that primarily lend or facilitate lending to promote community development
- local, state, and tribal governments for community development activities
- borrowers to finance environmental clean-up or redevelopment of an industrial site as part of an effort to revitalize the low- or moderate-income community in which the property is located

To date, the Bank has produced very few CD loans under the CRA Strategic Plan, as we have been unable to find and close loans meeting the community development definition. Competition for those loans is intense in the Atlanta market with many of the national and regional banks dominating those opportunities with exceptionally

large dollar loans. Consequently, most of the activity in this goal has been generated through the purchase of CD investments over the previous three years.

In 2020, GBC purchased investments in three different sets of CRA mortgages loans inside the Bank's AA from Raymond James: One for eleven loans, one for ten loans, and one for six loans.

In 2021, GBC purchased investments in three different sets of CRA mortgages loans inside the Bank's AA from Wells Fargo and Raymond James: One for eight loans, one for fourteen loans, and one for seven loans.

In 2021, GBC purchased an investment in a Freddie Mac Multifamily bond secured by 151 loans located inside the AA.

In 2022, a revenue bond was purchased in the Lawrenceville Georgia Housing Authority's Hearthside at Lawrenceville where 100% of units will be rented to tenants whose average income is at or below 60% of AMI.

In 2022, GBC invested in Source Capital Credit Opportunities, an Atlanta-based Small Business Investment Company (SBIC) Fund with recipients in the regional area.

BANK'S FOCUS ON AFFORDABLE HOUSING

As pointed out in several of our community discussion recaps in Section 6 of this document, affordable housing is seen as being a major barrier for individuals who are categorized as low- to moderate-income individuals. As such, GBC is devoting additional time and resources during this new CRA Strategic Plan period to monitor our mortgage lending efforts to LMI Geographies and Individuals.

At change in control, GBC began participating in some smaller multi-family housing loans, in fact on June 30, 2022, the Bank was carrying 3.38% of the loan portfolio in multi-family housing. New for the 2023-2025 CRA Strategic Plan, GBC will count multi-family housing loans located inside our CRA Assessment Area up to the greater regional area in low- to moderate-income census tracts or targeted to low- to moderate-income individuals in the CD Lending category. This new addition in the CD Lending section will further monitor multi-family dwellings with LMI attributes and will help gauge the Bank's focus on Affordable Housing.

We are comfortable with the goal we have established for CD investments and lending in our plan and feel the percentages, dollar amounts, and number of loans in the goal represents a significant commitment for GBC and will allow us to meet our obligations under CRA while maintaining a reasonable investment mix in the Bank's investment portfolio.

COMMUNITY SERVICES GRANTS AND DONATIONS GOALS

Grants & Donations Goal Summary Chart

Calendar Year		2023	2024	2025
	Ratings			
Community Services Grants and Donations	Satisfactory	\$60,000	\$62,500	\$65,000
	Outstanding	\$75,000	\$77,500	\$80,000

Georgia Banking Company is committed to investing in the community by supporting our non-profit partners financially. The Bank has again significantly increased its goals for grants and donations from the 2020-2022 plan.

Grants and donations made under the Strategic Plan will be focused on supporting non-profits in the community that have an established track record of meeting the needs of low- and moderate-income constituencies. Organizations focused on affordable housing and related areas will be a key focus of this goal, but support will also be provided to financial literacy training and critical support services targeted at low- to moderate-income individuals or families. This will include small business counseling and assistance to this group of individuals. Donations counted under this plan must meet that higher level of due diligence. GBC attempts to ensure that financial support is made available to entities throughout our CRA AA.

CURRENT NON-PROFIT AND COMMUNITY PARTNERS AND GRANTS AND DONATIONS

The organizations listed below represent existing partners that GBC is proud to financially support in meeting the community development and service needs of its AA. The Bank is committed to working diligently to identify needs in the assessment area that can be addressed using its available resources and partnering with the appropriate organizations to best leverage our efforts to serve the low- to moderate-income community within the AA. Our cooperative efforts with these partners will include grants and donations.

Abundant Life Soup Kitchen (Spalding) – This entity’s mission is to provide nutritious meals to the area's homeless and needy families. This soup kitchen is for homeless people and is located 2.4 miles from the Griffin branch. Donations to this entity were made for 2020, 2021, and 2022.

Access to Capital for Entrepreneurs (Fulton & Metro Atlanta) - The mission of Access to Capital for Entrepreneurs, Inc. (ACE) is to provide community economic development to underserved people and communities. ACE is one of the largest micro-lenders in Georgia. Donations to this entity were made for 2020 and 2021.

Atlanta Neighborhood Development Partnership (ANDP) (Fulton & Metro Atlanta) – The mission of ANDP is to promote, create and preserve mixed income communities through direct development, lending, policy research and advocacy that result in the equitable distribution of affordable housing throughout the metropolitan Atlanta region. Donations to this entity were made for 2020, 2021, and 2022.

The Center for Family Resources (Cobb) – The center’s efforts are focused on temporary income assistance, housing resources, financial and job-related education and support of other local non-profit organizations. Donations to this entity were made for 2020 and 2021.

Clayton County Division of Family and Children Services (DFCS) – They prioritize the safety of Georgia’s children in the decisions they make and the actions they take. They partner with families on their path to independence and build stronger communities with caring, effective, and responsive service. Donations to this entity were made for 2020 and 2021.

Community Assistance Center of Sandy Springs (Fulton) - CAC brings together the Sandy Springs and Dunwoody communities to provide compassionate assistance to neighbors in need by providing financial support, helping to meet basic needs and promoting self-reliance. Services include a food bank, back to school supplies, Christmas assistance, job counseling, tax preparation, emergency financial assistance, job skills training, employment assistance, English language courses, and financial literacy training to low-income families and individuals. Donations to this entity were made for 2020 and 2021.

DeKalb County Habitat for Humanity (DeKalb) – This organization builds and renovates homes for low- to moderate-income families and provides zero interest rate loans to finance the sale of these homes. They also provide financial literacy training to their current homeowners. Donations to this entity were made for 2020, 2021, and 2022.

Dentistry for the Developmentally Disabled (Metro Atlanta, Georgia) - The DDD Foundation is committed to improving the lives of our patients with developmental disabilities by offering accessible comprehensive dental treatment. Recently rated as a platinum-level nonprofit organization by Guidestar, we rely on

the generous donations given by individuals and corporations to deliver specialized care to our patients. A donation to this entity was made for 2022.

EverFi (Spalding & Clayton) – GBC Financial Scholars is an online learning platform that uses the latest technology to bring personal financial concepts to life. Students learn about savings, taxes, investing, insurance, and loans. GBC is the sole sponsor of a financial literacy program targeted to students in elementary and middle schools in Spalding County and to 4 schools in Clayton County. This contract was in effect for 2020, 2021, and 2022.

Everfi (Spalding) - GBC Financial Scholars is an online learning platform that uses the latest technology to bring personal financial concepts to life. Students learn about savings, taxes, investing, insurance, and loans. GBC is the sole sponsor of a financial literacy program targeted to students at Carver Road Middle School and for Southern Crescent Technical College's GED Program. This contract was in effect for 2020.

Five Loaves Two Fish Food Pantry (Spalding) – The Five Loaves and Two Fish Food Pantry provides a monthly bag of groceries to families in need. The Food Pantry seeks to provide several cans of vegetables, canned tuna or salmon, peanut butter, dry goods such as cornmeal, bread, and meat in each allocation. Whenever they are available, fresh fruit and vegetables are also included. The Food Pantry is a partner in the Spalding County Collaborative Authority for Families and Children. As such, the Food Pantry works to connect families in need with the community resources most able to help them. For this reason, the Food Pantry avoids taking on new projects that "reinvent the wheel," and instead supports the work of other community agencies to address areas of need other than hunger. Donations to this entity were made for 2020 and 2021.

Georgia Tech Foundation's G. Wayne Clough Promise Program Scholarship Fund (Fulton & Metro Atlanta) – The G. Wayne Clough Georgia Tech Promise Program is available to dependent Georgia residents pursuing their first undergraduate degree who meet the eligibility requirements. The program is designed to fill a gap in the financial aid support system, picking up where Georgia's HOPE scholarship and other financial aid options leave off. The program is intended to assist Georgia students whose families have an annual income of less than \$33,300. Donations to this entity were made for 2020 and 2021.

Griffin-Spalding Literacy Commission (Spalding) – The Literacy Commission is a joint effort of the local chapter of United Way and Southern Crescent Technical College. Aimed at increasing adult literacy, the program focuses on helping young adults prepare for the GED test. GBC funds go to providing costs to pay for the GED

test fee for low-income students who cannot afford the cost. Donations to this entity were made for 2020, 2021, and 2022.

Gwinnett Children's Shelter, Inc. a.k.a. Home of Hope (Gwinnett) – The mission of the Home of Hope is to provide emergency and transitional living programs to homeless children and their mothers while also providing life skills training. Donations to this entity were made for 2020, 2021, and 2022.

HomeAid Atlanta Inc. (Metro Atlanta) – The mission of HomeAid Atlanta is to build new lives for homeless families and individuals through housing and community outreach. Although their mission gives us broad latitude to engage in building projects across the entire continuum of care, from emergency shelters to transitional housing to permanent supportive housing, every HomeAid project supports an agency that provides services that help residents move toward self-sufficiency, such as education and job skills training, and physical and emotional support. A donation to this entity was made for 2022.

Impact46 (Gwinnett) - Impact46's Extended Stay Relocation Project partners with cities to assist families living in extended stays with the pathway to permanent housing through barrier elimination and community support. They provide relocation stipend and moving financial assistance, intensive case management, relocation navigator, and community resources to eliminate barriers (i.e. financial literacy, ready to hire employment opportunities, etc.) A donation to this entity was made for 2022.

Junior Achievement of Georgia (Fulton, Gwinnett) – Junior Achievement (JA) focuses on high impact programs that drive long-term outcomes in areas of financial literacy, career readiness and fostering the entrepreneurial spirit through integration of community and business partners, high quality instructional experiences, and strategic school district partnerships. A donation to this entity was made for 2022.

Mercy Care Foundation / Mercy Clinics (DeKalb, Metro Atlanta/Downtown) Furthering the healing ministry of the Sisters of Mercy, Mercy Care gives tangible expression to Christ's merciful love by providing compassionate, clinically excellent healthcare in the spirit of loving service to those in need, with special attention to the poor and vulnerable. Donations to this entity were made for 2020 and 2021.

Southern Crescent Habitat for Humanity (Henry, Clayton, Fayette) - This organization builds and renovates homes for low- to moderate-income families and provides zero interest rate loans to finance the sale of these homes. They also provide financial literacy training to their current homeowners. Donations to this entity were made for 2020, 2021, and 2022.

Special Kneads and Treats (Gwinnett) - Special Kneads and Treats, Inc. is a 501(c)(3) nonprofit with a core mission to ensure that any child in their community that has a birthday whose family cannot afford a birthday cake receives one FREE from them. They work primarily with local food cooperative ministries, Foster Care and DFCS to get these cakes into the hands of those in need. One of their major programs is connecting individuals with disabilities to a rewarding profession while providing valuable work experience and training. A focus on special needs adults receiving self-confidence, a sense of value and the opportunity to enjoy success and socialization is their core concern. A donation to this entity was made for 2022.

The Study Hall (Fulton) - The Study Hall is an after-school and summer camp program serving K-5th grade children in the greater Peoplestown Community, offering an educational and enrichment curriculum that equips children to achieve sustained personal and academic success. We have served over 2,400 students in Peoplestown, Mechanicsville, and other historic Atlanta neighborhoods near the Georgia State University Stadium in Atlanta (formerly Turner Field). Our services are provided at no cost to participating families. A donation to this entity was made for 2022.

Trinity Combine (Fulton) - The Trinity Community Ministries successfully prepares formerly homeless men to become self-sustaining members of society through shelter and education services. All of the men are LMI Individuals. Their largest fundraiser annually is the Trinity Combine which is an athletic event where the participants are sponsored thereby raising funds for the entity. Donations to this entity were made for 2021 and 2022.

Wellspring Living (Clayton, Fulton, Gwinnett) - The mission of Wellspring Living is to transform the lives of those at risk or victimized by sexual exploitation. Their vision is to see a world where every victim of sexual exploitation has access to transformative care. Donations to this entity were made for 2020, 2021, and 2022.

COMMUNITY SERVICE HOUR GOALS

Service Hour Goal Summary Chart

Calendar Year		2023	2024	2025
	Ratings			
Community Service Hours	Satisfactory	210 Hours	220 Hours	230 Hours
	Outstanding	235 Hours	245 Hours	255 Hours

Georgia Banking Company is committed to investing in the community by supporting our non-profit partners through volunteer time and effort. We are comfortable that the goals established under this plan are achievable and challenging and represent an ongoing commitment by the Bank to serving the community through direct action. We are confident the new goals are attainable based on current staffing headcount at the bank. The hours for the new plan’s goals show an increase over the previous plan’s goals as well as increases each year.

Service hours will be focused on providing technical assistance to non-profits and to facilitating financial literacy training for consumers, students, and small business owners. Employees and Directors of the Bank may also consider opportunities to serve the non-profit community through service on boards or targeted fund-raising efforts that qualify as CRA service hours.

When GBC failed to meet our CRA Community Service Hour goals during the COVID outbreak of 2020, similar to many other financial institutions given the challenge of operating during a pandemic, the Bank set about finding additional opportunities where employees and directors could perform qualifying activities so as to diversify our options. Several new parties were open to our assistance as expressed below.

NON-PROFIT AND COMMUNITY PARTNERS AND SERVICE ACTIVITIES

The following 2020-2022 CRA Community Service Hour opportunities in which GBC employees and directors engaged in the previous plan are examples of the types of Community Service GBC intends to provide for the new CRA Strategic Plan term.

Viva Finance (Clayton) – In 2020, a Senior member of management counseled a start-up business, a micro lender, which supports local county school system employees through providing low dollar loans that can be paid back through the employee’s payroll. Many of the school systems supported are located in LMI census tracts. This employee provided financial expertise to help counsel and

educate the micro lender on market delivery and to answer additional financial questions.

The Spalding-Griffin Literacy Commission Local Advisory Board (Spalding) –

In 2020, a member of the Bank’s Management Team provided financial expertise discussing financial literacy and implementing new programs for adult education courses. This organization targets community services to low- and moderate- income individuals and families by assisting with intervention before high schoolers drop out and assistance with obtaining a GED high school equivalency diploma.

Junior Achievement/Chick-fil-A Discovery Center (Metro Atlanta & Gwinnett) –

In 2021 and 2022, The Bank provided volunteers to support this state-of-the-art financial literacy training platform aimed at educating middle school students from the Atlanta metropolitan area. Volunteers provide individual guidance and facilitate group discussions as the students participate in simulations of real life financial decision-making tasks.

Wellspring Living (Fulton) – This entity provides housing, education, and counseling in a closed and safe environment for 11 – 18-year-old girls who have been sexually trafficked. All of these girls are LMI individuals. In 2021 and 2022, GBC employees provided financial literacy education for these students.

Gwinnett Children’s Shelter, Home of Hope – This entity provides shelter to homeless mothers and their children. All of these women are LMI individuals. In 2021 and 2022, GBC employees provided financial literacy education for these women. Additionally, in 2022, an employee joined their board of directors and provides professional expertise in that roll.

Trinity Combine (Fulton) – The Trinity Community Ministries successfully prepares formerly homeless men to become self-sustaining members of society through shelter and education services. All of the men are LMI Individuals. Their largest fundraiser annually is the Trinity Combine which is an athletic event where the participants are sponsored thereby raising funds for the entity. In 2021 and 2022, an employee was a long-time member of the Board for the fundraiser.

Southern Crescent Technical College (Spalding) – In 2022, GBC and SCTC have joined forces to offer students involved in an Integrated Educational Training (IET) for job skills training 4 hours of financial literacy training. These are held quarterly for adult students who are seeking to obtain a GED through SCTC. Per the administrators there, all participants in this program are low-income individuals.

Special Kneads & Treats (Gwinnett) – Special Kneads and Treats, Inc. is a 501(c)(3) nonprofit with a core mission to ensure that any child in their community that has a birthday whose family cannot afford a birthday cake receives one FREE from them. They work primarily with local food cooperative ministries, Foster Care and DFCS to get these cakes into the hands of those in need. One of their major programs is connecting individuals with disabilities to a rewarding profession while providing valuable work experience and training. A focus on special needs adults receiving self-confidence, a sense of value and the opportunity to enjoy success and socialization is their core concern. In 2022, this entity was certified as a CRA eligible entity by findCRA. One employee has served on the Board of Directors for many years.

Lawrenceville Business Alliance (Gwinnett) – This non-profit entity supports other businesses in the area. In 2022, one meeting of the LBA was specifically targeted to providing financial and professional skills to a local LMI food bank, the Lawrenceville Co-op, by discussing the club's financials and also donating dry/canned foods. An employee is on the Board of Directors of the LBA.

GBC CARES

As a Community Bank, it's important that we not only support those in our neighborhoods with the products and services we offer but more importantly, by lending a helping hand to those in need. In 2018 we launched GBC Cares, a Community Involvement Initiative that allows employees the opportunity to take part in putting passion into action - by getting out there and spending time making a difference in our community.

While the service projects and donations through GBC Cares are not strictly limited to CRA qualifying events, they are worthy causes within our AA. These projects are suggested by employees and performed by employee volunteers on Bank time.

While these events do not qualify for CRA Service hour credit, during 2020, Bank employees performed these COVID-related relief items.

- On Monday, March 16th, most GBC employees were sent home with Bank-issued laptops, internet hotspots, and power cords, where needed, so that they could safely quarantine at home. Others remained behind to process mail and accept deposits.
- In March, April, and May, the retail branches called both consumer and corporate clients to check in on them and to see if they needed any assistance with their banking needs. This calling program was well-received by both consumer and commercial customers.

- In the first week in April, the Everfi Parent Portal was opened to employees, customers, and Facebook followers. This offered free online financial literacy courses for all ages.
- In the week of April 6th, large screen monitors were distributed by a small group of employees to the homes of all employees who requested one.
- On Monday, April 13th, GBC used eleven Bank volunteers to deliver 61 handmade face masks to employees at their homes.
- The Bank continues to offer PPE supplies to those working in the office.
- In November, employees of the Bank worked together to raise \$1,484.94 of baby formula, pack-and-plays, a car seat, diapers, clothes for teens, personal care items, Christmas gifts, food, school supplies, and COVID supplies for the children in the care of Clayton County's DFCS programs. The Bank followed-up with a CRA donation in the amount of \$1,000 to the same group.
- In November, employees at the Griffin branch raised awareness and money for the Susan G Komen Breast Cancer Awareness Fund.
- In December, employees at the Powers Ferry office purchased bikes, trikes, and scooters for children through the Toys for Tots Annual Drive.

2021 Cares events included:

- Several employees are members of Boards of Directors for entities that are not directly involved with LMI individuals. Employees offer their time and professional expertise, both during work time and outside of it to these entities. These boards included The Arbors at Sandy Springs Condominium Association, Rotary Gwinnett, Griffin Daybreak Rotary, Gwinnett Chamber of Commerce, Lions Club of Griffin, Rotary Club of Lawrenceville, Building Christian Ministries, Suwanee Business Alliance, Griffin Spalding Chamber of Commerce, GLANCE Gwinnett, Gwinnett Young Professionals, Gwinnett Strategic Partners, Leadership Gwinnett, Rotary of Henry County, Hudgens Center for Art & Learning, and Special Kneads & Treats.
- Employees also engaged with the community assisting with charity events that assist people in different ways. Many of these entities provide direct assistance to LMI individuals, but the activity provided is not considered an eligible activity for CRA Service Hour credit. These entities included North Georgia State Fair, Spirit of Sharing, HomeAid, Toys for Tots, Georgia Gwinnett College, Boys & Girls Club of Lanier, Neighborhood Cooperative

Ministries, North Fulton Community Charities, Rainbow Village, Helping Mammias, Taylor Road Marching Band, Southern Crescent Technical College, Boy Scouts, Chattahoochee High School, Hope Center for Memory Care, Peachtree Ridge High School, BackPack Blessings, and Hope Health Clinic.

- In January, the Griffin Office gathered coats for LMI individuals from employees and customers which were then donated to the Salvation Army.
- In February, GBC provided lunch to approximately 75 healthcare workers providing COVID shots at a free clinic.
- In April, GBC wanted to celebrate the change in control with an employee event that also carried meaning for our community. The Come Grow with Us as we Spring into Giving Event brought both old and new employees together with a focus on two of our preferred charities, Home of Hope and Wellspring Living. During this event, goods from a request list were donated by employees who attended the event, then the Bank matched the value of those items with a CRA donation. The total amount from employee donations was \$4,131.40 and the items were split between the two entities. The Bank also contributed to a community garden at each entity in recognition of the theme of the event.
- In September, one loan officer attended the 24th Annual Georgia Affordable Housing Coalition Conference in Savannah, Georgia. The GAHC is a statewide organization open to developers, debt & equity providers and third-party vendors involved in the affordable housing industry. The Georgia Department of Community Affairs (DCA) administered the training as they are the governing body that oversees for the State of Georgia the various multifamily housing programs that are offered.
- In October 2021, GBC donated approximately \$6,075 of office furniture to Special Needs Schools.
- In November, four employees donated their time at the Junior Achievement/Chick-fil-A Discovery Center (Metro Atlanta) performing financial literacy training. While this activity normally counts towards CRA Service Hours, the school that was attending that day changed at the last minute from an eligible school to one with less than 50% free and reduced lunches and the Bank was not notified. This event would have provided an additional 18 hours of credit towards our 2021 CRA Service Hour goal and would have put the Bank well over the outstanding goal. As it was, two of the volunteers stayed and earned 9 GBC Cares hours.

- In December, Clayton County DFCS contacted the Bank indicating an immediate need for pack-n-plays. In two weeks, employees were able to provide 14 pack-n-plays, sheets for each, blankets, baby formula, and other items.

2022 GBC Cares events through August included:

- Several employees are members of Boards of Directors for entities that are not directly involved with LMI individuals. Employees offer their time and professional expertise, both during work time and outside of it to these entities. These boards included Rotary Gwinnett, Gwinnett Chamber of Commerce, Rotary Club of Lawrenceville, Building Christian Ministries, Suwanee Business Alliance, Lawrenceville Business Alliance, GLANCE Gwinnett, Gwinnett Young Professionals, Gwinnett Tech Foundation, Gwinnett Strategic Partners, Leadership Gwinnett, and Hudgens Center for Art & Learning.
- Employees also engaged with the community assisting with charity events that assist people in different ways. Many of these entities provide direct assistance to LMI individuals, but the activity provided is not considered an eligible activity for CRA Service Hour credit. Some of these entities included Christ Covenant Presbyterian Church, She ATL, Athens Church, Lawrenceville Co-op, Beyond the Ribbon, Generations Expo 50+ Boomers and Seniors, Mill Creek Athletic Association, Performance Races Services LLC, Georgia Bankers Association, Special Kneads and Treats, Embassy City Church, Home of Hope, Street Wise, Randy and Friends, Robidou Company Cares Benefiting Cherokee Family Violence Center, Gwinnett County Library Foundation, Aurora Theatre, Covenant College, Gwinnett Clean & Beautiful, Spirit of Sharing, Inc., City of Alpharetta Sharks Swim Team, Georgia Gwinnett College, Chattahoochee High School, Good Samaritan Health Centers of Gwinnett, Impact46, Gwinnett Leadership Forum, Partnership Against Domestic Violence, Community Foundation of NE Georgia, Discover Life Church, The Gwinnett School of Mathematics, Science, and Technology, Helping Mammias, and Boy Scouts.
- In July, GBC employees decided to provide 23 students with backpacks full of snacks, supplies, and a lunch bag containing teacher requested necessities. These students were residents of The Pines in Tucker GA, and the owner is a client of GBC's. All residents are LMI individuals.

- In July, two employees provided financial literacy training at InSpalding summer day camp. The LMI individual status of the attendees could not be confirmed, so this was not counted towards CRA Community Service Hours.

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING	1
DESCRIPTION OF INSTITUTION	2
DESCRIPTION OF ASSESSMENT AREA	3
SCOPE OF EVALUATION	6
CONCLUSIONS ON PERFORMANCE CRITERIA	7
DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW	10
GLOSSARY	11

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

Georgia Banking Company's CRA performance demonstrates a satisfactory record of helping to meet the credit needs of its assessment area as outlined by an approved CRA Strategic Plan. The bank's performance met or exceeded the established measurable goals and supports the overall satisfactory rating. Using the Strategic Plan Examination Procedures, the following findings relative to the institution's performance during the evaluation period, support the overall rating:

- **Residential Mortgages and Loans to Small Businesses** exceeded the established minimum goals for Satisfactory performance in 2020, and exceeded the established minimum goals for Outstanding performance in 2021 and 2022.
- **Community Development Lending and Investments** exceeded the established minimum goals for Satisfactory performance during 2020, 2021, and 2022.
- **Community Services (Grants and Donations)** exceeded the established minimum goals for Satisfactory performance goal in 2020, and exceeded the established minimum goals for Outstanding performance goals in 2021 and 2022.
- **Community Services (Hours of Service)** exceeded the established minimum goals for Satisfactory performance during 2021 and Outstanding performance for 2022, but did not meet the established minimum goal for satisfactory performance in 2020.

DESCRIPTION OF INSTITUTION

Georgia Banking Company is a state-chartered, non-member commercial bank headquartered in Atlanta, Fulton County, Georgia (GA). Georgia Banking Company remains wholly owned by Georgia Banking Company, Inc., a one-bank holding company also located in Atlanta, GA. Georgia Banking Company, Inc., underwent a change in control in January 2021. The change in control resulted in changes to the bank's strategic direction. Since the change in control, Georgia Banking Company transitioned from primarily a mortgage banking focus to a full-service community bank focus. The bank received a Satisfactory rating at its prior FDIC Performance Evaluation, dated October 26, 2020, based on Strategic Plan Examination Procedures.

Georgia Banking Company operates seven full-service offices, all located within the Atlanta, GA, metro area. The bank continues to operate its branch office in Griffin, Spalding County, GA. In December 2021, the main office in Sandy Springs, Fulton County, GA, was closed and relocated to Atlanta, GA. Since the previous evaluation, the bank opened five branch offices, one each in Duluth, Gwinnett County, GA, and Lawrenceville, Gwinnett County, GA, in December 2021; Alpharetta, Fulton County, GA, in August 2022; Marietta, Cobb County, GA, in September 2022; and Atlanta, GA, in October 2023. Georgia Banking Company has not engaged in any merger or acquisition activity since the previous evaluation.

Georgia Banking Company offers a variety of farm, commercial, home mortgage, and consumer loans. Georgia Banking Company continues to operate GBC Funding, a division of the bank that provides mortgage warehouse facilities to approved independent mortgage bankers nationwide. Deposit products offered includes a variety of checking, savings, money market, certificates of deposits, and individual retirement accounts. Alternative banking products include automated teller machines, video/integrated teller machines, online banking, mobile banking, bill pay, and telephone banking.

The bank's June 30, 2023, Consolidated Reports of Condition and Income (Call Report) reflected total assets of \$1.6 billion, total loans of \$1.3 billion, total deposits of \$1.3 billion, and total securities of \$70.9 million. The following table reflects that commercial loans (loans secured by non-farm, non-residential properties and commercial and industrial loans) represent the largest portion of the loan portfolio at 46.5 percent. Residential loans (loans secured by 1-4 family and multifamily properties) represented the second largest portion at 29.1 percent. Farm loans (loans secured by farmland and agricultural loans) and consumer loans represent a nominal amount of the loan portfolio, at 0.5 percent and 2.4 percent, respectively.

Loan Portfolio Distribution as of 6/30/2023		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	139,046	11.0
Secured by Farmland	6,652	0.5
Secured by 1-4 Family Residential Properties	330,433	26.1
Secured by Multifamily (5 or more) Residential Properties	38,026	3.0
Secured by Nonfarm Nonresidential Properties	347,257	27.5

Lease Financing Receivable (net of unearned income)	-	-
Less: Unearned Income	4,883	0.4
Total Loans	1,264,731	100.0
<i>Source: Call Report</i>		

Examiners did not identify any financial, legal, or other impediments that would limit the institution's ability to meet the credit needs of its assessment area.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more assessment areas within which examiners evaluate its CRA performance. Georgia Banking Company continues to have one delineated assessment area that partially consists of the Atlanta-Sandy Springs-Alpharetta, GA Metropolitan Statistical Area (MSA). At the prior evaluation, the assessment area consisted of 13 counties: Cherokee, Clayton, Cobb, Coweta, DeKalb, Fayette, Forsyth, Fulton, Gwinnett, Henry, Lamar, Pike, and Spalding. The assessment area was amended with the approval of the 2020-2022 Strategic Plan to reflect the area that the bank is reasonably expected to serve. Specifically, Lamar and Pike Counties were removed, and Barrow, Paulding, and Walton Counties were added to the assessment area. As such, the current assessment area consists of 14 counties: Barrow, Cherokee, Clayton, Cobb, Coweta, DeKalb, Fayette, Forsyth, Fulton, Gwinnett, Henry, Paulding, Spalding, and Walton.

The assessment area has been delineated in accordance with the technical requirements of the CRA regulation, which consists of whole geographies (census tracts), does not arbitrarily exclude low- or moderate-income census tracts, and includes census tracts where the bank's offices are located.

Assessment area delineations are based on available census data. Specifically, the 2015

American Community Survey (ACS) Census data was used at the previous evaluation to delineate the bank's assessment area. In 2022, the Federal Financial Interagency Examination Council (FFIEC) released updates to the MSA and Metropolitan Divisions, states, counties, census tracts, and income-level indicators based on information collected during the 2020 United States (U.S.) Census. As a result of the 2020 U.S. Census, the number of census tracts increased and income classifications changed, which impacted the bank's assessment area. The following table details the number of census tracts within the

assessment area, encompassing changes to both the income-classification and county amendments, since the previous evaluation.

Tract Income Level	# of Census Tracts 2015 ACS	# of Census Tracts 2020 U.S. Census
Low	98	109
Moderate	189	289
Middle	200	384
Upper	292	474
Income Level Not Assigned	8	52
Total	787	1,308

Unemployment rates for all counties, the state, and the nation declined in 2021 and 2022, due to the recovery of the high unemployment levels in 2020 during the COVID-19 pandemic.

Unemployment rates for all counties were below state and national rates, except

Clayton County, which was higher than the state and national rates, and Dekalb, Fulton, Henry, and Spalding

Counties, which was higher than the state rates. The following table reflects the average annual unemployment rates and trends by county, state, and the nation.

Area	Unemployment Rates*		
	2020	2021	2022
	%	%	%
Barrow County	5.0	2.9	2.5
Cherokee County	4.8	2.6	2.4
Clayton County	10.3	6.3	3.9
Cobb County	5.9	3.2	2.6
Coweta County	6.1	3.3	2.7
DeKalb County	7.9	4.5	3.1
Fayette County	5.3	2.9	2.6
Forsyth County	4.5	2.5	2.3
Fulton County	7.9	4.6	3.2
Gwinnett County	6.3	3.5	2.7
Henry County	7.2	4.2	3.2
Paulding County	5.3	3.0	2.6
Spalding County	7.5	4.6	3.3
Walton County	5.3	3.2	2.8
State of Georgia	6.5	3.9	3.0
National Average	8.1	5.3	3.6

*Source: Bureau of Labor Statistics; *Not seasonally adjusted*

According to 2022 D&B Data, non-classifiable establishments represent the largest industry in the assessment area at 34.8 percent; followed by the services industry at 31.7 percent; finance, insurance, and real estate at 9.7 percent; and retail trade at 8.0 percent. According to the Georgia Department of Labor, major employers include (in no particular order): Amzn Svcs, LLC; Delta Air Lines, Inc.; Emory University; Northside Hospital, Inc.; and Wellstar Health System, Inc.

Competition

There is a high level of competition within the assessment area. According to the FDIC’s June 30, 2023 *Deposit Market Share Report*, there are 73 FDIC-insured financial institutions operating 934 offices within the assessment area. Of these institutions, Georgia Banking Company ranked 18th, with a 0.6 percent deposit market share. The top five financial institutions account for 73.4 percent of the deposit market share.

Community Contact

As part of the evaluation, examiners contact third parties active in the assessment area to assist in identifying credit and community development needs. Community contacts provide information based upon their knowledge and expertise in the housing, business, and economic sectors. This information helps examiners determine whether local financial institutions are responsive to those needs and to identify the credit and community development opportunities that are available.

Examiners used an existing community contact that was with a housing organization that serves the assessment area by providing affordable housing to low- and moderate-income families. The contact stated that there is a need for affordable housing, as the housing prices are increasing rapidly and new homes are not readily affordable. The contact provided a positive reflection of local financial institution involvement in the assessment area in helping to meet the credit and community development needs.

Credit and Community Development Needs and Opportunities

Considering information obtained from the community contact, demographic data, and economic data, examiners determined that small business loans represent a primary credit need and opportunity within the assessment area. The significant percentage of businesses with gross annual revenues of \$1.0 million or less (94.1 percent) and the large number of businesses with four or fewer employees (56.3 percent) support the conclusion that there is a need for small business lending. In addition, affordable housing is a need, as 8.0 percent of families live below the poverty level and 37.7 percent of families are low- or moderate-income. Further, 30.4 percent of the census tracts within the assessment area are categorized as low- or moderate-income, which also reflects a need for assistance in revitalizing and stabilizing these areas.

SCOPE OF EVALUATION

General Information

Examiners evaluated Georgia Banking Company's CRA performance pursuant to the Interagency Strategic Plan Examination Procedures. Examiners conducted a full-scope review of the bank's CRA performance within the assessment area. Under Strategic Plans, institutions are required to specify measurable goals for helping to meet the credit and community development needs of the assessment area(s). The FDIC reviews and approves Strategic Plans before they are put into effect.

Since the previous evaluation, dated October 26, 2020, to the current evaluation, dated October 30, 2023, Georgia Banking Company has operated under two Strategic Plans. The FDIC approved a Plan with an effective date of January 1, 2020, which included goals for lending, investments, and services for calendar years 2020 through 2022. The FDIC approved the current Plan, with an effective date of January 1, 2023, which included similar goals for lending, investments, and services for calendar years 2023 through 2025. This evaluation covers Georgia Banking

Company's CRA performance for three years (January 1, 2020 through December 31, 2022).
Examiners did not review partial year performance for calendar year 2023.

Activities Reviewed

Georgia Banking Company developed its 2020-2022 Strategic Plan specifically to meet the credit and community development needs within its assessment area. The Strategic Plan includes measurable goals that the FDIC used to evaluate the bank's performance. The Strategic Plan contained four goals that measure the bank's activity to help meet the assessment area's needs:

- *Goal #1: Residential Mortgages and Loans to Small Businesses* – This includes residential mortgage loans that are reported on the bank’s Home Mortgage Disclosure Act (HMDA) Loan Application Registers (LARs) and small business loans defined as loan commitments of \$1.0 million or less. The Strategic Plan outlines lending performance as a percentage of average assets, per calendar year.
- *Goal #2: Community Development Lending and Investments* – This goal focuses on community development lending activities and participating in qualified investments. The Strategic Plan outlines community development lending performance and qualified investments as a percentage of average assets, per calendar year.
- *Goal #3: Community Services - Grants and Donations* – This goal focuses on grants and donations to community groups and organizations. The Strategic Plan outlines specific dollar volume goals for qualified grants and donations.
- *Goal #4: Community Service Hours* – This goal focuses on community development service activities. The Strategic Plan outlines specific goals based on service hours.

Average assets, as defined by the Strategic Plan, was calculated by taking an average of quarterly average assets as reported on the Call Report for the prior year. Bank management provided information on retail and community development lending activity; qualified investments, grants, and donations; and community development services. Examiners used records and reports provided by bank management, publicly available economic and demographic data, as well as other information to evaluate the bank’s performance.

CONCLUSIONS ON PERFORMANCE CRITERIA

Goal #1: Residential Mortgages and Loans to Small Businesses

Georgia Banking Company exceeded the established goals for the evaluation period. This goal reflected the combined HMDA reportable residential mortgage loans and small business loans, by dollar volume, as a percentage of average assets for each calendar year. Georgia Banking Company exceeded the Satisfactory performance goal in 2020 and the Outstanding performance goals in 2021 and 2022. The results of the

analysis are in the following table.

Residential Mortgages and Loans to Small Businesses					
Plan Year	Institution Established Goals			Institution Performance	
	Satisfactory	Outstanding	Average Assets	Mortgages and Small Business Loans	Mortgages and Small Business Loans to Average Assets
	(%)	(%)	(\$000s)	(\$000s)	(%)
2020	7.40	11.40	460,985	44,744	9.71
2021	7.50	11.50	607,864	70,645	11.62
2022	7.60	11.60	786,550	97,290	12.37

Source: Bank Records; 2020-2022 Strategic Plan

Goal #2: Community Development Lending and Investments

Georgia Banking Company exceeded the established goals for Satisfactory performance for the calendar years 2020, 2021, and 2022. During the evaluation period, the bank originated two community development loans and purchased 14 community development investments totaling \$29.5 million. The following table reflects the bank's Strategic Plan goals for community development loans and qualified investments and the bank's performance during the evaluation period.

Community Development Lending and Investments					
Plan Year	Institution Established Goals			Institution Performance	
	Satisfactory	Outstanding	Average Assets	Community Development Loans and Investments	Community Development Loans and Investments to Average Assets
	(%)	(%)	(\$000s)	(\$000s)	(%)
2020	1.25	1.50	460,985	6,373	1.38
2021	1.40	1.65	607,864	9,414	1.55
2022	1.55	1.80	786,550	13,717	1.74

Source: Bank Records; 2020-2022 Strategic Plan

Below are examples of qualified community development loans and investments made inside of the bank's assessment area.

- In 2020, the bank purchased three investments, totaling \$6.4 million in mortgage-backed securities, providing affordable housing for low- and moderate-income borrowers.
- In 2021, the bank purchased four investments, totaling \$9.4 million in mortgage-backed securities, providing affordable housing for low- and moderate-income borrowers.
- In 2022, the bank originated a loan totaling \$2.0 million to refurbish and make improvements to a 31-unit multi-family apartment complex where 100 percent of the rents are below the 2022 HUD Fair Market Rent estimates, providing affordable housing to the area.

Goal #3: Community Services – Grants and Donations

Georgia Banking Company exceeded the Satisfactory performance goal in 2020 and the Outstanding performance goals in 2021 and 2022. During the evaluation period, the bank's grants and donations totaled \$158,716. The grants and donations included contributions that provided community development services, affordable housing, and economic development, in the assessment area. The following table reflects the bank's Strategic Plan goals for community development grants and donations and the bank's performance during the evaluation period.

Community Service – Grants and Donations			
Plan Year	Institution Established Goals		Institution Performance
	Satisfactory	Outstanding	Grants and Donations
	(\$)	(\$)	(\$)
2020	40,000	45,000	42,340
2021	42,500	47,500	54,176
2022	45,000	50,000	62,200

Source: Bank Records; 2020-2022 Strategic Plan

Below are examples of qualified community development grants and donations made inside of the bank’s assessment area.

- The bank made donations of \$3,500 each in 2020 and 2021, to help fund a scholarship for an adult education program. The program assists low- and moderate-income participants with college and career guidance, general education development (GED) preparation, life skills training, and financial literacy, providing community services to the area.
- The bank made donations of \$2,500 each in 2020 and 2021, to a medical facility that provides free or reduced medical and dental care to low- and moderate-income individuals, providing community services to the area.
- The bank made donations totaling \$30,600 in 2020, 2021, and 2022, to fund a financial literacy program at a local Title 1 school where 56 percent of the students are eligible for free or reduced lunch benefits, providing community services to the area. Georgia Banking Company is the sole sponsor of the financial literacy program.

Goal #4: Community Service Hours

Georgia Banking Company exceeded the established minimum goals for Satisfactory performance during 2021 and Outstanding performance for 2022, but did not meet the established minimum goal for satisfactory performance in 2020. The bank’s performance and opportunities in 2020 were extremely limited due to the COVID-19 Pandemic and the lock-down and social distancing protocols throughout the Atlanta Metro Area. Board members and bank employees were involved in community development organizations that provide community services to low- and moderate-income families, including financial education. Community development service hours are evaluated by the number of hours spent performing qualified services.

Community Service Hours			
Plan Year	Institution Established Goals		Institution Performance
	Satisfactory	Outstanding	Hours of Service
	(Hours)	(Hours)	(Hours)

2020	165	190	3
2021	180	205	196
2022	200	225	308
<i>Source: Bank Records; 2020-2022 Strategic Plan</i>			

Below are examples of qualified community development services provided during the evaluation period:

- In 2021, bank employees volunteered 64 hours to teach the members financial literacy at Wellspring Living, a shelter for women and children who are victims of domestic violence, providing community services to the area.
- In 2022, several employees volunteered 170 hours to teach curriculum through the Junior Achievement of Georgia. Employees taught financial literacy courses to schools in Gwinnett County where more than 50 percent of students qualify for free or reduced lunch programs, providing community services to the area.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

Examiners did not identify any evidence of discriminatory or other illegal credit practices; therefore, this consideration did not affect the institution's overall CRA rating.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five-year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income

groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and

economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into "male householder" (a family with a male householder and no wife present) or "female householder" (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area’s population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

Internet Banking

www.georgiabanking.com

For your convenience, Virtual Teller Machine/Automated Teller Machines (VTM/ATMs) are located at our Buckhead, Garden Hills, Lawrenceville, Duluth, Alpharetta, and Marietta Offices. These units have the option of being able to interact virtually with a teller or Universal Banker during business hours or use of the ATM 24 hours a day, 7 days a week.

An ATM is available at our Griffin Office. The ATM is accessible 7 days a week, 24 hours a day.

There are no differences in the products or services offered at any of the locations.
